

Mike Hines, OFS, FOSA Vice Chairman

Mike Hines is the Market Manager for Industrial Sensing with OFS, in Avon, CT, USA. His responsibilities include market, product and business development in Industrial Sensing for applications in upstream, mid-stream and downstream oil and gas markets, including downhole, pipeline, and reservoir monitoring. Mike is also actively involved with technologies to help bring value to the rail and perimeter security markets through distributed fiber optic sensing. With a background in marketing and economics, he is a twenty-five year veteran of the fiber optics industry, focusing on specialty optical fiber and associated technologies. Mike holds a Bachelor of Science degree in Marketing and a Master of Business Administration.
