**	Negotiated Rate				
A	U S WEST and AT&T Interconnection Agreement approved by the North Dakota Public Utilities Commission in Docket Number PU-453-96-497, effective June 23, 1997.				
B	271 Compliance Investigation Docket Number PU-314-97-193, Order on Group 2 Checklist Items dated 10/15/01.				
C	Cost Docket Case No. PU-2342-01-296				
1	Rate not addressed in cost docket (estimated TELRIC)				
2	Market-based rates contained in the Stipulation and Settlement Agreement in Case No. PU-2342-01-296.				
3	ICB, Individual Case Basis pricing				
4	Rates per FCC Guidelines. Pole Attachment & innerduct Occupancy rates revised in 9/17/04 Exhibit A to reflect newly calculated rates.				
5	Rates not applicable to UNE Elements. See Qwest's North Dakota Access Service Catalog				
6	Preliminary QPF costs are included in the Caged & Cageless space construction charges. Engineering & planning charges are also included in the caged & cageless QPF. Upon completion of the construction, the QPF will be credited to the final space construction charge for the collocation job. The credit will apply to whichever QPF is applied. Exhibit currently lists multiple QPFs based on the cost docket & what was approved in the AT&T Intercon. agreement. CLEC may choose either QPF at this time.				
7	Intentionally Left Blank				
8	When distribution is purchased only for the purpose of campus wire, no recurring or nonrecurring charges will be assessed. This does not include collocation charges or FCP placement.				
9	Intentionally Left Blank				
10	Intentionally Left Blank				
11	All technically feasible Vertical Switch Features are available with compatible unbundled switch ports. No monthly recurring charge applies for Basic Vertical Switch Features. Only Basic Vertical Features with non-recurring charges are listed. Non-recurring charges are applicable whenever a feature is added - whether on new installation, conversion, or change order activity.				
12	A Special Request is a request by the customer to perform something that is technically feasible but the process and pricing are not yet in place.				
13	The NID charge will only apply if (a) the CLEC requests replacement of the NID; (b) the CLEC has requested an upgrade or rearrangement of existing facilities for which replacement of the NID is necessary; or (c) the CLEC is using its own loop facilities and requests a NID for access to inside wiring at the customer premises.				
14	Qwest is voluntarily reducing the LMC Multiplexing Recurring rate in order to keep the rate relationship with EEL Multiplexing.
