PUBLIC SERVICE COMMISSION

**AMENDMENT TO
TRAFFIC EXCHANGE AGREEMENT
BETWEEN
RESERVATION TELEPHONE COOPERATIVE
AND
NORTH DAKOTA NETWORK COMPANY**

1. INTRODUCTION

This Amendment to the April 1, 2006, Traffic Exchange Agreement between Reservation Telephone Cooperative (“RTC”) and North Dakota Network Company (“NDNC”) is effective November 2, 2009, and is to make changes to Section 4.0 SERVICE AGREEMENT in the aforementioned Traffic Exchange Agreement.

4.0 SERVICE AGREEMENT

Description of Arrangements. This Agreement provides for the following interconnection and arrangements between the networks of Reservation and NDNC. Additional arrangements that may be agreed to in the future will be expressed in a separate Attachment to this Agreement. An NPA/NXX assigned to NDNC shall be treated as Local Service Area traffic and included in any EAS calling scope, or similar program, to the same extent as any other incumbent LEC’s NPA/NXX in the same rate center provided that NDNC assigns numbers from such NPA/NXX to customers within the Local Service Area of Reservation and NDNC has network facilities to serve such customers.

4.1 Direct Interconnection at Garrison and Kenmare: A Type 2A two-way direct trunk group will be implemented and provisioned between Reservation’s Parshall Tandem Office Switch (PRSHNDXARS0) and NDNC’s network, with the POI designated at a technically feasible point on Reservation’s network. This trunk group is provisioned in connection with NDNC’s NPA/NXX’s rate centered at Reservation’s exchange(s) and/or EAS exchange(s). Applicable tariff charges for establishing and provisioning this trunk group are billed by Reservation to NDNC as described in § 5.3.5. of this Agreement.

4.1.1 Landline-to-Wireless: Local Service Area calls from Reservation’s landline customers to NDNC customers listed in Attachment A shall be routed from Reservation’s Parshall Tandem Office Switch to NDNC via the Type 2A two-way direct trunk group.

4.1.2 Wireless-to-Landline: Local Service Area calls originated by NDNC’s customers within MTA No. 12 (Minneapolis-St. Paul) or customers of another CMRS provider that has entered into roaming arrangement with NDNC, while roaming in MTA No. 12, to Reservation customers that can be reached via the connection to the Parshall Tandem Office Switch shall be routed from NDNC’s network via the Type 2A two-way direct trunk group to Reservation’s Parshall Tandem Office Switch for termination by Reservation to its customers, as appropriate.

IN WITNESS WHEREOF, the Parties hereto have caused this Agreement to be executed as of the dates listed below.
