NORTH DAKOTA GRAIN WAREHOUSE BOND
LICENSED 7 YEARS OR MORE

Bond Calculation Worksheet

Use this worksheet to calculate your required bond. The *total corporate capacity bond amounts* and *total annual grain purchase volume bond amounts* charts are attached.

Total corporate capacity: _____ bushels

1. Bond amount from attached *total corporate capacity bond amounts* chart: $_____

If your firm's total annual grain purchase volume is more than 7 times its total licensed and bonded capacity, additional bond coverage is required. A **new licensee** should use its projected annual grain purchase volume.

a. Total corporate capacity: _____ bushels

b. Multiply bushels from line (a) X 7 = _____ bushels

c. Total actual or projected annual grain purchase volume: _____ bushels
If line (b) is greater than line (c) no additional bond is needed.
If line (b) is less than line (c) continue to line (d).

d. Line (c) minus line (b) = _____ bushels
Additional bond is required for bushels in line (d).

2. Additional bond amount required for bushels in line (d)
Bond amount from attached *total annual grain purchase volume bond amounts* chart $_____

Required Bond (Add lines 1 and 2 above) **$_____**

OPTIONAL BOND REDUCTION.. A required bond may be reduced by 30% for a licensee that establishes and follows a conversion policy of 10 days or less. A required bond may be reduced by 15% for a licensee that establishes and follows a conversion policy of 11 to 21 days. **A conversion policy must be filed with and approved by the Public Service Commission.**

Above Required Bond: $_____ X 15% or 30% $_____

Required Bond - If eligible for bond reduction. **$_____**

The required minimum bond is $65,000 and the required maximum bond is $2,000,000, unless the Commission requires an increase in the amount of bond.

If you have any questions, please call 701-328-4097.
