Case No. PU-1762-00-189

ORDER APPROVING INTERCONNECTION AGREEMENT AMENDMENT

July 6, 2000

On April 24, 2000, U S WEST Communications, Inc. (U S WEST) filed an application for approval of a negotiated fourth amendment to its interconnection agreement with Consolidated Communications Networks, Inc. The amendment adds terms and conditions relating to cageless colocation.

The amendment was filed under Section 252(e) of the Telecommunications Act of 1996 (Act). The Act requires that any agreement adopted by negotiation or arbitration be submitted for approval to the Commission. Under section 252(e)(2)(A), the Commission may only reject an agreement (or portion thereof) adopted by negotiation if it finds that:

1. the agreement (or portion thereof) discriminates against a telecommunications carrier that was not a party to the agreement;
2. the implementation of the agreement (or portion thereof) is not consistent with the public interest, convenience, and necessity.

In addition, the Commission may include in its review state requirements that do not constitute barriers to entry under section 253.

Section 252(e)(4) requires that the Commission must act to approve or reject an agreement adopted by negotiation within ninety (90) days after submission by the parties.

On May 10, 2000, the Commission issued a Notice of Opportunity to File Written Comments, which provided that the Commission would receive written comments on the agreement amendments until June 30, 2000. No comments have been received.

The Commission has reviewed the amended agreement and finds that it has not been shown to discriminate against a telecommunications carrier that was not a party to the agreement. The Commission further finds that implementation of the amended agreement has not been shown to be inconsistent with the public interest, convenience and necessity.

Order

The Commission orders:

1. The interconnection agreement fourth amendment negotiated between U S WEST Communications, Inc. and Consolidated Communications Networks, Inc. filed with the Commission on April 24, 2000, is APPROVED.
2. The Commission retains continuing jurisdiction over the amended agreement at all times.
3. Notice of any changes to the amended agreement must be filed promptly with the Commission.
4. The amended agreement must not be assigned, assumed or otherwise transferred without the approval of the Commission.
5. Each party to the amended agreement shall respond reasonably and in good faith to the other party's requests to implement the agreement.

NOTICE OF OPPORTUNITY TO FILE WRITTEN COMMENTS

May 10, 2000

On April 24, 2000, in Case No. PU-1762-00-189, U S WEST Communications, Inc. (U S WEST) filed an application for approval of a negotiated fourth amendment to its interconnection agreement with Consolidated Communications Networks, Inc. The amendment adds terms and conditions relating to cageless colocation.

Also on April 24, 2000, in Case No. PU-2041-00-190, U S WEST filed for approval of a negotiated first amendment to its interconnection agreement with CCCND, Inc. The amendment adds terms and conditions relating to cageless colocation and redefines the term of the agreement.

These agreements were filed under Section 252(e) of the Telecommunications Act of 1996 (Act). The Act requires that any agreement adopted by negotiation or arbitration be submitted for approval to the Commission. Under section 252(e)(2)(A), the Commission may only reject an agreement (or portion thereof) adopted by negotiation if it finds that:

1. the agreement (or portion thereof) discriminates against a telecommunications carrier that was not a party to the agreement;
2. the implementation of the agreement (or portion thereof) is not consistent with the public interest, convenience, and necessity.

In addition, the Commission may include in its review state requirements that do not constitute barriers to entry under section 253.

Section 252(e)(4) requires that the Commission must act to approve or reject an agreement adopted by negotiation within ninety (90) days after submission by the parties.

The Commission will receive written comments on these Interconnection Agreements until June 30, 2000.

For more information contact the Public Service Commission, State Capitol, Bismarck, North Dakota 58505, 701-328-2400; or Relay North Dakota 1-800-366-6888 TTY. Section 40.6 Cageless Collocation

40.6.1 Description - Cageless Physical Collocation

Cageless Physical Collocation is a non-caged area within a USW Wire Center. Space will be made available in single frame bay increments. The minimum square footage is nine (9) square feet per bay. Space will be provided utilizing USW standard equipment bay configurations in which CCNI can place and maintain its own equipment. CCNI is responsible for the procurement, installation and on-going maintenance of its equipment as well as the cross-connections required within CCNI's leased collocation space. NEBS3 safety standards are required.

40.6.2 Terms and Conditions - Cageless Physical Collocation

40.6.2.1 CCNI owns and is responsible for the installation, maintenance and repair of its telecommunications bays and equipment located within the space leased from USW. CCNI may access its own Collocated equipment.

40.6.2.2 For Cageless Physical Collocation, the minimum square footage is 9 square feet per bay. Requests for multiple bay space will be provided in adjacent bays where possible. When contiguous space is not available, bays may be commingled with other Co-Providers' equipment bays. CCNI may request, through the USW Space Reclamation Policy, a price quote to rearrange USW equipment to provide CCNI with adjacent space. Bay dimensions for the 9 sq. feet mentioned above are for a 26" wide bay (upright edge to upright edge), 12"-15" deep, with front and back aisles. Any dimensions larger than these may entail ICB intervals and costs, since such dimensions would not fit in the standard transmission aisle lineup. If spacers are desired, CCNI must note those needs on the collocation form. Such spacers added space requirements may not be available and may require added costs to provision.

40.6.3 Rate Elements - Cageless Physical Collocation

The supporting structure and rate elements for Cageless Physical Collocation are the same as Caged Physical Collocation, excluding the nonrecurring cage enclosure and grounding charge. The minimum square footage is 9 square feet per bay. If a new line-up is established, an AC power outlet will be provided to every other bay in the lineup. Cageless bays placed in an existing line-up will utilize the existing outlets.

40.6.4 Ordering - Cageless Physical Collocation

40.6.4.1 Upon receipt of a Collocation Order Form and QPF, USW will perform a feasibility study to determine if adequate space can be found for the placement of CCNI's equipment within the Central

Office. The feasibility study will be provided within ten (10) calendar days from date of receipt of the QPF. If Collocation entrance facilities and office space are found to be available, USW will develop a quote for the supporting structure within twenty-five (25) calendar days of providing the feasibility study. Cageless Physical Collocation price quotes will be honored for thirty (30) calendar days from the date the quote is provided. Upon receipt of the signed quote, 50% down and proof of insurance, space will be reserved and construction by USW will begin. When space and power requirements are available, the leased space will be available to CCNI for placement of its equipment within ninety (90) calendar days of receipt of the 50% down payment. Depending on specific Wire Center conditions, shorter intervals may be available. Final payment is due upon completion of work. Recurring monthly charges for the Collocation commence upon the completion of the Collocation.

40.6.4.2 Due to variables in equipment availability and scope of the work to be performed, additional time may be required for implementation of the structure required to support the Collocation request. Examples of structure that may not be completed within ninety (90) calendar days may include additional time for placement of a C-POI and DC power upgrades required to meet CCNI's Collocation request.

40.6.4.3 The intervals in Section 40.6.4.1 above apply to a maximum of five (5) collocation orders per Co-Provider per week. If six (6) or more collocation orders are required by CCNI in a one-week period, intervals shall be individually negotiated.

40.6.5 Billing - Cageless Physical Collocation

Upon completion of USW construction activities and CCNI payment of the remainder of the nonrecurring charges, USW will allow CCNI access to the Collocation space. USW will activate monthly billing for the leased space and turn over access to the space with all security and access privileges. CCNI will sign off on the completion of the space via the Cageless Physical Collocation completion package. CCNI may then proceed with the installation of its equipment in the Collocation space. Once CCNI's equipment has been installed and cable is provided for the CCNI's equipment terminations, USW will complete all remaining work activities.

40.6.6 Maintenance - Cageless Physical Collocation

CCNI is solely responsible for the maintenance and repair of its equipment located within CCNI's cageless physical space.
