RE: Case No. PU-2038-00-237
IdeaOne Telecom Group LLC/U S WEST
Interconnection Agreement-Amendment
Application

Enclosed is a copy of the statement approved at the August 2, 2000 Public Service Commission meeting for the expenses incurred to date in Case No. PU-2038-00-237.

Under N.D.C.C. 49-21-01.7, these expenses are billed through the Valuation Fund and must be paid for by the Telecommunications Company involved.

Please make your check payable to the Public Service Commission, Federal Tax ID 45-0309764.

Sincerely,

Gloria Geiger
Administrative Assistant

**IdeaOne Telecom Group, LLC/U S WEST
Interconnection Agreement-Amendment
Application**

Case No. PU-2038-00-237

ORDER APPROVING INTERCONNECTION AGREEMENT AMENDMENT

July 6, 2000

On May 16, 2000, U S WEST Communications, Inc. (U S WEST) filed an application for approval of a negotiated amendment to its interconnection agreement with IdeaOne Telecom Group, LLC. The amendment adds rates, terms and conditions relating to digital capable loops and channel regeneration.

The amendment was filed under Section 252(e) of the Telecommunications Act of 1996 (Act). The Act requires that any agreement adopted by negotiation or arbitration be submitted for approval to the Commission. Under section 252(e)(2)(A), the Commission may only reject an agreement (or portion thereof) adopted by negotiation if it finds that:

1. the agreement (or portion thereof) discriminates against a telecommunications carrier that was not a party to the agreement;
2. the implementation of the agreement (or portion thereof) is not consistent with the public interest, convenience, and necessity.

In addition, the Commission may include in its review state requirements that do not constitute barriers to entry under section 253.

Section 252(e)(4) requires that the Commission must act to approve or reject an agreement adopted by negotiation within ninety (90) days after submission by the parties.

On May 25, 2000, the Commission issued a Notice of Opportunity to File Written Comments, which provided that the Commission would receive written comments on the agreement amendments until June 30, 2000. No comments have been received.

The Commission has reviewed the amended agreement and finds that it has not been shown to discriminate against a telecommunications carrier that was not a party to the agreement. The Commission further finds that implementation of the amended agreement has not been shown to be inconsistent with the public interest, convenience and necessity.

Order

The Commission orders:

1. The interconnection agreement amendment negotiated between U S WEST Communications, Inc. and IdeaOne Telecom Group, LLC filed with the Commission on May 16, 2000, is APPROVED.
2. The Commission retains continuing jurisdiction over the amended agreement at all times.
3. Notice of any changes to the amended agreement must be filed promptly with the Commission.
4. The amended agreement must not be assigned, assumed or otherwise transferred without the approval of the Commission.
5. Each party to the amended agreement shall respond reasonably and in good faith to the other party's requests to implement the agreement.

STATE OF NORTH DAKOTA

PUBLIC SERVICE COMMISSION

**IdeaOne Telecom Group, LLC/U S West
Interconnection Agreement-Amendment
Application**

Case No. PU-2038-00-237

NOTICE OF OPPORTUNITY TO FILE WRITTEN COMMENTS

May 25, 2000

On May 16, 2000, U S WEST Communications, Inc. (U S WEST) filed an application for approval of negotiated amendments to its interconnection agreement with Idea One Telecom Group, LLC to add rates, terms and conditions relating to digital capable loops and channel regeneration.

This agreement amendment was filed under Section 252(e) of the Telecommunications Act of 1996 (Act). The Act requires that any agreement adopted by negotiation or arbitration be submitted for approval to the Commission. Under section 252(e)(2)(A), the Commission may only reject an agreement (or portion thereof) adopted by negotiation if it finds that:

1. The Agreement (Or Portion Thereof) Discriminates Against A Telecommunications Carrier That Was Not A Party To The Agreement;
2. The Implementation Of The Agreement (Or Portion Thereof) Is Not Consistent With The Public Interest, Convenience, And Necessity.

In addition, the Commission may include in its review state requirements that do not constitute barriers to entry under section 253.

Section 252(E)(4) Requires That The Commission Must Act To Approve Or Reject An Agreement Adopted By Negotiation Within Ninety (90) Days After Submission By The Parties.

The Commission will receive written comments on this interconnection agreement amendment until June 30, 2000.

For More Information Contact The Public Service Commission, State Capitol, Bismarck, North Dakota 58505, 701-328-2400; Or Relay North Dakota 1-800-366-6888 Tty. If You Require Any Auxiliary Aids Or Services, Such As Readers, Signers, Or Braille Materials Please Notify Jon Mielke, Executive Secretary.

Re: **Filing of First Amendment to the Wireline Agreement between U S WEST
Communications, Inc. and IdeaOne Telecom Group, LLC**

Dear Mr. Mielke:

Enclosed for filing is an original and seven (7) copies of the First Amendment to the Interconnection Agreement (the "Amendment") between IdeaOne Telecom Group, LLC ("IdeaOne") and U S WEST Communications, Inc. ("U S WEST"). This Amendment was reached through voluntary negotiation between U S WEST and IdeaOne. Pursuant to the terms of the Amendment, the parties are requesting the Commission expedite its review and approval.

This Amendment supplements the original interconnection agreement between IdeaOne and U S WEST which was approved by the Commission on April 29, 1999, in Case No. PU-2038-99-67. This Amendment allows the Parties to add Section 8.3, Digital Capable Loops and Channel Regeneration (and associated rates), to the original interconnection agreement.

Also enclosed is an extra copy of this letter. Please date stamp the extra copy and return it to me in the enclosed self-addressed stamped envelope. Please send any and all correspondence regarding this matter to the undersigned. Thank you for your cooperation and assistance in this matter. Please feel free to contact me at (303) 793-6605 should you have any questions.

Yours truly,

Enclosures

**Amendment No. 1
to the Interconnection Agreement
between
U S WEST Communications, Inc.
and
IdeaOne Telecom Group LLC
for the state of North Dakota**

This is Amendment No. 1 ("Amendment") to the Interconnection Agreement between IdeaOne Telecom Group LLC ("IdeaOne"), a North Dakota Limited Liability Company and U S WEST Communications, Inc. ("U S WEST"), a Colorado corporation. IdeaOne and U S WEST shall be known as the "Parties".

RECITALS

WHEREAS, the Parties entered into an Interconnection Agreement, for the state of North Dakota, that was executed on January 14, 1999, and approved by the North Dakota Public Service Commission ("Commission") on April 29, 1999 (the "Agreement").

NOW, THEREFORE, the Parties wish to amend the Agreement under the terms and conditions contained herein.

AGREEMENT

In consideration of the mutual terms, covenants and conditions contained in this Amendment and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Parties agree as follows:

1. Amendment Description

The Agreement is hereby amended by adding Section 8.3, Digital Capable Loops and Channel Regeneration (and associated rates), to the Agreement, as set forth in Attachment 1, attached hereto and incorporated herein.

2. Effective Date

This Amendment shall be deemed effective upon approval by the Commission; however, the Parties may agree to implement the provisions of this Amendment upon execution.

3. Further Amendments

Except as modified herein, the provisions of the Agreement shall remain in full force and effect. Neither the Agreement nor this Amendment may be further amended or altered except by written instrument executed by an authorized representative of both Parties.

The Parties intending to be legally bound have executed this Amendment as of the dates set forth below, in multiple counterparts, each of which is deemed an original, but all of which shall constitute one and the same instrument.

ATTACHMENT 1

8.3 Digital Capable or Qualified Loops - Basic Rate ISDN, DS1, DS3, ADSL Qualified Loops and Channel Regeneration

8.3.1 Terms and Conditions

- 8.3.1.1 Digital Capable or Qualified Loops - Basic Rate ISDN, DS1 or DS3 capable and ADSL. Unbundled digital loops are transmission paths capable of carrying specifically formatted and line coded digital signals. Unbundled digital Loops may be provided using a variety of transmission technologies including but not limited to metallic wire, metallic wire based digital loop carrier and fiber optic fed digital carrier systems. U S WEST will determine the specific transmission technology by which the Loop will be provided. Such technologies are used singularly or in tandem in providing service. DC continuity is not inherent in this service. Charges shall apply for conditioning of the Digital Capable Loops, as requested by IdeaOne, if necessary, as determined by U S WEST.
- 8.3.1.2 When IdeaOne requests a Basic Rate ISDN capable Loop, U S WEST will dispatch a technician to provide Extension Technology (as defined in the Interconnect and Resale Resource Guide), that may include the placement of repeaters, in either the Central Office or in the field, or BRITE cards in both the COT and RT in order to make the Loop ISDN capable. The ISDN capable Loop may also require conditioning (e.g., removal of loads or bridged tap). IdeaOne will be charged an Extension Technology recurring charge in addition to the Unbundled Loop recurring charge as specified in Exhibit A of this Amendment. If U S WEST uses Integrated Digital Loop Carrier (IDLC) systems to provide the Unbundled Loop, to the extent possible, U S WEST will make alternate arrangements, which could include Line and Station Transfers (LST), to permit IdeaOne to order a contiguous Unbundled Loop.
- 8.3.1.3 When IdeaOne requests a DS1 or DS3 capable Loop, U S WEST will provide access to the existing electronics at both ends including any intermediate repeaters.
- 8.3.1.4 U S WEST is not obligated to provision BRI-ISDN, DS1 or DS3 capable or ADSL qualified Loops in areas served by Loop facilities and/or transmission equipment that are not compatible with the requested service. To avoid spectrum conflict within U S WEST facilities, U S WEST may control the use of certain cables for spectrum management considerations.
- 8.3.1.5 When IdeaOne requests an ADSL Qualified Loop, U S WEST will pre-qualify the requested circuit by utilizing the existing telephone number or address to determine whether it meets ADSL

specifications. If a circuit qualifies for ADSL then conditioning is not required. The qualification process tests the circuit for compliance with the design requirements specified in Technical Publication 77384.

8.3.1.6 IdeaOne has four installation options available when ordering an Unbundled Loop. Depending upon the type of Loop ordered (analog or digital capable), the rates for the installation options will vary. Rates are contained in Exhibit A of this Amendment.

8.3.1.6.1 Basic Installation Option for Existing Service.

The Basic Installation option may be ordered for existing (reuse) service only. For an existing U S WEST or other CLEC end user changing to IdeaOne, the Basic Installation option has no associated circuit testing. U S WEST disconnects the Loop from its current termination and delivers it via the ITP to the point of demarcation. U S WEST will notify IdeaOne when the work activity is complete. Basic Installation Rates apply for this option and are contained in Exhibit A of this Amendment.

8.3.1.6.2 Basic Installation with Performance Testing Option for New Service.

The Basic Installation with Performance Testing option is the minimum level of installation required for new service. For new service that has not previously existed, U S WEST will complete the circuit wiring per the WORD document and/or the service order. U S WEST will perform the required performance tests to ensure the new circuit meets the required parameter limits. The test results are recorded as benchmarks for future testing purposes. The test results are forwarded to IdeaOne by U S WEST. Basic Installation with Performance Testing rates apply for this option and are contained in Exhibit A of this Amendment.

8.3.1.6.3 Coordinated Installation with Cooperative Testing Option.

The Coordinated Installation with Cooperative Testing option may be ordered for new or existing service. For an existing U S WEST or other CLEC end user changing to IdeaOne, the Coordinated Installation option includes cooperative testing. IdeaOne has the option of designating a specific appointment time when the order is placed. If no appointment time is specified when the order is initiated, IdeaOne will provide such information to U S WEST at least 48 hours prior to the desired appointment time. At the appointment time, U S WEST will disconnect the Loop from its current termination and deliver it to the point of demarcation in coordination with IdeaOne. U S WEST will complete the required performance tests and perform other testing as requested by

IdeaOne. Testing requested by IdeaOne that exceeds testing requirements contained in U S WEST's Technical Publication 77384 will be billed to IdeaOne. Test results will be recorded as benchmarks for future testing and will be forwarded to IdeaOne. Coordinated Installation with Cooperative Testing rates apply for this option and are contained in Exhibit A of this Amendment. The following are the performance tests generally performed by loop type:

Digital Capable Loops

Basic Rate ISDN Capable Loops

No Load Coils, Opens, Grounds, Shorts, or Foreign Volts

DC Continuity

Insertion Loss = ≤ 40 dB at 40 kHz

Automatic Number Identification (ANI) when dial-tone is present

DS1 Capable Loops

No Load Coils, Opens, Grounds, Shorts, or Foreign Volts

DC Continuity

DS3 Capable Loops

Continuity Testing

ADSL Qualified Loops

No Load Coils, Opens, Grounds, Shorts, or Foreign Volts

DC Continuity

Insertion Loss = ≤ 41 dB at 196 kHz

Automatic Number Identification (ANI) when dial-tone is present

8.3.1.6.4 Coordinated Installation without Testing for Existing Service.

Coordinated Installation without Testing may be ordered for 2-wire analog loop start or ground start Unbundled Loops. For an existing U S WEST or other CLEC end user changing to IdeaOne, this option remains a procedure in which U S WEST disconnects the Loop and delivers it via an ITP to the demarcation point. In addition, this procedure offers IdeaOne the ability to coordinate the conversion activity, allowing IdeaOne's end user to pre-plan for minimal service interruption. At IdeaOne's designated time, U S WEST will contact IdeaOne with notification that the work activity is beginning. If no appointment time is specified when the order is initiated, IdeaOne will provide such information to U S WEST at least 48 hours prior to the desired appointment time. At the appointment time, U S WEST disconnects the Loop from its current termination and delivers it via an ITP to the point of demarcation. Once the work has been completed, U S WEST will notify IdeaOne that the procedure has been completed. Coordinated Installation without Cooperative Testing rates apply for this option and are contained in Exhibit A of this Amendment.

8.3.2 Rate Elements

- 8.3.2.1 Digital Capable Loops - Basic rate ISDN and DS1 capable Loops. Basic rate ISDN and DS1 Loops should only be requested when the 2/4 wire non-loaded Loop is either not available or the non-loaded Loop does not meet the technical parameters of IdeaOne's service(s). Unbundled digital Loops are transmission paths capable of carrying specifically formatted and line coded digital signals from the NI on an end user's premises to a U S WEST CO-NI. Basic Rate ISDN and DS1 unbundled digital Loops may be provided using a variety of transmission technologies including but not limited to metallic wire, metallic wire based digital loop carrier and fiber optic fed digital carrier systems. DS3 capable Loops will be provided on a fiber optic transmission technology. U S WEST will determine the specific transmission technology by which the Loop will be provided. Such technologies are used singularly or in tandem in providing service. DC continuity is not inherent in this service. Charges shall apply for conditioning of the Digital Capable Loops, as requested by IdeaOne, if necessary.
- 8.3.2.2 Unbundled Loop recurring monthly rates for Digital Capable Loops, including Basic rate ISDN, DS1 and DS3 capable Loops, including Extension Technology recurring charges, are described in Exhibit A of this Amendment.
- 8.3.2.3 Unbundled Loop non-recurring charges for Digital Capable Loops, including Basic rate ISDN, DS1 and DS3 capable Loops - described in Exhibit A, include the following:
- a) Installation charges;
 - b) Conditioning charge.

8.3.3 Channel Regeneration

8.3.3.1 Channel Regeneration Charge.

This charge is required when the distance from the U S WEST network to the leased physical space (for Physical Collocation), the collocated equipment (for Virtual Collocation), or the ICDF (for ICDF Collocation) is of sufficient length to require regeneration.

EXHIBIT A
North Dakota Rates

- Digital Capable Loops	Recurring Charge	Nonrecurring Charge
- Basic rate ISDN capable Loop	\$ 19.75	N/A
- DS1 capable Loop	\$ 102.22	N/A
