McLeodUSA Telecommunications Services, Inc./U S WEST Case No. PU-2057-00-402
Interconnection Agreement Amendments
Application

ORDER APPROVING INTERCONNECTION AGREEMENT AMENDMENTS

October 11, 2000

On August 1, 2000, in Case No. PU-2057-00-398, U S WEST Communications, Inc. (U S WEST) filed an application for approval of an interconnection agreement first and second amendment negotiated with McLeodUSA Telecommunications Services, Inc. The first amendment adds rates, terms and conditions for unbundled network elements and the second amendment adds reciprocal compensation language to the underlying agreement.

On August 4, 2000, in Case No. PU-2057-00-402, U S WEST filed an application for approval of an interconnection agreement third and fourth amendment negotiated with McLeodUSA Telecommunications Services, Inc. These amendments add rates, terms and conditions for load coils/bridge taps, DS3 capable loops and interconnection distribution frames to the underlying agreement.

These amendments were filed under Section 252(e) of the Telecommunications Act of 1996 (Act). The Act requires that any agreement adopted by negotiation or arbitration be submitted for approval to the Commission. Under section 252(e)(2)(A), the Commission may only reject an agreement (or portion thereof) adopted by negotiation if it finds that:

1. the agreement (or portion thereof) discriminates against a telecommunications carrier that was not a party to the agreement;
2. the implementation of the agreement (or portion thereof) is not consistent with the public interest, convenience, and necessity.

In addition, the Commission may include in its review state requirements that do not constitute barriers to entry under section 253.

Section 252(e)(4) requires that the Commission must act to approve or reject an agreement adopted by negotiation within ninety (90) days after submission by the parties.

On August 16, 2000, the Commission issued a Notice of Opportunity to File Written Comments, which provided that the Commission would receive written comments on the agreement amendments until September 22, 2000. No comments have been received.

The Commission has reviewed the amended agreement and finds that it has not been shown to discriminate against a telecommunications carrier that was not a party to the agreement. The Commission further finds that implementation of the amended agreement has not been shown to be inconsistent with the public interest, convenience and necessity.

Order

The Commission orders:

1. The interconnection agreement amendments negotiated between U S WEST Communications, Inc. and McLeodUSA Telecommunications Services, Inc. filed with the Commission on August 1 and 4, 2000 are APPROVED.
2. The Commission retains continuing jurisdiction over the amended agreement at all times.
3. Notice of any changes to the amended agreement must be filed promptly with the Commission.
4. The amended agreement must not be assigned, assumed or otherwise transferred without the approval of the Commission.
5. Each party to the amended agreement shall respond reasonably and in good faith to the other party's requests to implement the agreement.

Subject: Attached Notice

Please have the attached Notice of Opportunity to File Written Comments published as a legal publication in the next issue of the ten North Dakota daily newspapers. Also run it as a "News Item Only" article.

This notice must be published by August 28th in order for us to meet our legal obligations. If you cannot meet this deadline, please let me know.

Please send the bill to the Public Service Commission along with a tear sheet for billing purposes.

Call me at 328-4076 if you have any questions.

Thank you.

Interconnection Agreement Amendment
Application

I move the Commission issue a Notice of Opportunity to File Written Comments in the applications by U S WEST for approval of interconnection agreement amendments negotiated with McLeodUSA Telecommunications Services, Inc., Case Nos. PU-2057-00-398 and PU-2057-00-402, and for approval of a wireless interconnection agreement negotiated with WWC Holding Co., Inc., Case No. PU-2355-00-400.

JRL/sdh

000400-2.doc

In addition, the Commission may include in its review state requirements that do not constitute barriers to entry under section 253.

Section 252(e)(4) requires that the Commission must act to approve or reject an agreement adopted by negotiation within ninety (90) days after submission by the parties.

The Commission will receive written comments on these agreements until September 22, 2000.

For more information contact the Public Service Commission, State Capitol, Bismarck, North Dakota 58505, 701-328-2400; or Relay North Dakota 1-800-366-6888 TTY. If you require any auxiliary aids or services, such as readers, signers, or Braille materials please notify Jon Mielke, Executive Secretary.

**Re: Filing of Third and Fourth Amendments to the Wireline Agreement
between USWC Communications, Inc. and McLeodUSA
Telecommunications Services, Inc.**

Dear Mr. Mielke:

Enclosed for filing are an original and seven (7) copies of the Third and Fourth Amendments to the Interconnection Agreement (the "Amendment") between McLeodUSA Telecommunications Services, Inc. ("McLeodUSA") and USWC Communications, Inc. ("U S WEST"). These Amendments were reached through voluntary negotiation between U S WEST and McLeodUSA.

These Amendments supplement the original interconnection agreement between McLeodUSA and U S WEST which was approved by the Commission on May 26, 1999, in Case No. PU-2057-99-109. The Third Amendment adds terms, conditions and rates for Load Coils/Bridge Taps and DS3 Capable Loops and the Fourth Amendment adds terms, conditions and rates for Interconnection Distribution Frames to the underlying agreement.

Also enclosed is a copy of this letter. Please date stamp the copy and return it to me in the enclosed self-addressed stamped envelope. Please send any and all correspondence regarding this matter to the undersigned. Thank you for your cooperation and assistance in this matter. Please do not hesitate to contact me at (303) 793-6612 if you have any questions.

Yours truly,

A handwritten signature in cursive script that reads "Sally E Bowen".

**Amendment No. 3 to the Interconnection Agreement
Between
McLeodUSA Telecommunications Services, Inc.
and
USWC Communications, Inc.
For the State of North Dakota**

This Amendment No. 3 ("Amendment") is made and entered into by and between McLeodUSA Telecommunications Services, Inc. ("McLeod") and USWC Communications, Inc. ("USWC").

RECITALS

McLeod and USWC entered into that certain Interconnection Agreement for service in the state of North Dakota which was approved by the North Dakota Public Service Commission on May 26, 1999 (the "Agreement"); and

McLeod and USWC wish to amend the Agreement under the terms, conditions, and rates contained herein;

NOW THEREFORE, the Parties agree to the following:

1. Amendment Terms.

This Amendment is made in order to:

- a) Add the terms, conditions, and rates for Load Coils/Bridge Taps as set forth in Attachment 1, attached hereto and incorporated herein, to this Amendment.
- b) Add the terms, conditions, and rates for DS3 Capable Loop as set forth in Attachment 2 attached hereto and incorporated herein, to this Amendment.

2. Effective Date.

This Amendment shall be deemed effective upon approval by the appropriate state Commission; however, the Parties may agree to implement the provisions of this Amendment upon execution.

3. Further Amendments.

Except as modified herein, the provisions of the Agreement shall remain in full force and effect. Neither the Agreement nor this Amendment may be further amended or altered except by written instrument executed by an authorized representative of both parties.

The parties intending to be legally bound have executed this Amendment as of the dates set forth below, in multiple counterparts, each of which is deemed an original, but all of which shall constitute one and the same instrument.

ATTACHMENT 1

1. BRIDGE TAP/LOAD COIL

1.1 Terms and Conditions

When McLeod requests a Special Copper Loop Feeder Medium, Special Copper Distribution, or both, as defined in Attachment 3, Section 8.4.2.3 and Section 9.3 of the existing Agreement, as required, USWC will dispatch a technician to "condition" the Loop by removing load coils and bridge taps (*i.e.*, "unload" the Loop) in order to provide McLeod with a Special Copper Loop Feeder Medium, Special Copper Distribution, or both. McLeod will be charged the cable unloading and bridge tap removal non-recurring charge in addition to the Unbundled Loop installation nonrecurring charge. If a USWC technician is dispatched and no load coils or bridge taps are removed, the non-recurring charge will not apply. Placement of repeaters either in the field or in the Central Office are not included as part of the conditioning charge. Repeater placement is included under Extension Technology. If USWC uses Integrated Digital Loop Carrier (IDLC) systems to provide the Unbundled Loop, to the extent possible, USWC will make alternate arrangements to permit McLeod to order a contiguous Unbundled Loop pursuant to Attachment 3, Section 8.1.2 of the existing Agreement.

1.2 Rate Elements.

PRODUCT RATES

State	Description	NRC	RC	USOC
ND ATT Arb	LC and/or BT	\$538.16	\$0.00	NR9U8

ATTACHMENT 2

1. DS3 CAPABLE LOOP

1.1 Terms and Conditions

- 1.1.1 When McLeod requests a DS3 Capable Loop, USWC will provide access to the existing electronics at both ends including any intermediate repeaters.
- 1.1.2 USWC is not obligated to provision DS3 Capable Loops in areas served by Loop facilities and/or transmission equipment that are not compatible with the requested service. To avoid spectrum conflict within USWC facilities, USWC may control the use of certain cables for spectrum management considerations.

1.2. Rate Elements

- 1.2.1 Unbundled Loop recurring monthly rates for Digital Capable Loops, including Basic rate DS3 Capable Loops, including Extension Technology recurring charges, are described below.
- 1.2.2 Unbundled Loop non-recurring charges for Digital Capable Loops, including Basic rate DS3 capable Loops as described below, include the following:

DS3 Capable Loop Basic Install (Existing Service) First	\$149.16
DS3 Capable Loop Basic Install (Existing Service) Ea Addl	\$117.28
DS3 Capable Loop Basic Install Performance Test (New Ser) First	\$340.92
DS3 Capable Loop Basic Install Performance Test (New Ser) Ea Addl	\$285.93
DS3 Capable Loop Coord Install with Cooperative Test First	\$380.03
DS3 Capable Loop Coord Install with Cooperative Test Ea Addl	\$324.45
DS3 Capable Loop Coord Install W/O Test (Existing Service) First	\$154.12
DS3 Capable Loop Coord Install W/O Test (Existing Service) Ea Addl	\$122.23

1.3 Ordering Process

- 1.3.1 All Unbundled Loops are ordered via an LSR.
- 1.3.2 Prior to placing orders on behalf of the end user, McLeod shall be responsible for obtaining and have in its possession a Proof of Authorization as set forth in the underlying Agreement.
- 1.3.3 The installation intervals for the Analog, Non-Loaded Loops and Digital Capable Loops are defined in the Interconnect & Resale Resource Guide. The interval will start when USWC receives a complete and accurate Local Service Request (LSR). This date is considered the start of the service interval if the order is received prior to 3:00 p.m. The service interval will begin on the next business day for service requests received after 3:00 p.m. This interval may be impacted by order volumes and load

control considerations. If more than twenty-five orders are issued at the same address, the request will be handled on an individual case basis.

1.3.4 Installation intervals for Unbundled Loops apply when facilities and/or network capacity is in place. In addition, exceptions may occur in the event of central office conversions, system outages, severe weather conditions, and during emergency preparedness situations. Under these circumstances, service intervals will be quoted on an individual case basis (ICB).

1.3.5 The service intervals that have been established for DS3 Capable Unbundled Loops are set forth below:

Established Service Intervals for DS3 capable Unbundled Loops:

		High Density	Low Density
a)	1-3 lines	7 business days	9 business days
b)	4 or more	ICB	ICB

1.3.6 McLeod can request access to existing fiber and other high capacity loops through the BFR process.

1.3.7 When ordering Unbundled Loops, McLeod is responsible for obtaining or providing facilities and equipment that are compatible with the service.

1.4 Maintenance and Repair

1.4.1 McLeod is responsible for its own end user base and will have the responsibility for resolution of any service trouble report(s) from its end users. McLeod will perform trouble isolation on the Unbundled Loop and any associated ancillary services prior to reporting trouble to USWC. USWC will work cooperatively with McLeod to resolve trouble reports when the trouble condition has been isolated and found to be within a portion of USWC's network. The Parties will cooperate in developing mutually acceptable test report standards. When the trouble is not in USWC's network, McLeod shall be assessed the applicable time and materials charges.

1.4.2 USWC will perform tests to isolate the service trouble. If no trouble is found, USWC will notify McLeod. If the trouble is isolated to the Central Office, or a USWC facility, USWC will repair, without charge, as long as the trouble is not attributed to McLeod's Collocation equipment, cabling, and/or cross connects. If the trouble is attributed to McLeod's Collocation equipment, cabling or cross connects, USWC will notify McLeod and charges will apply. If the trouble is on the end user's side of the NID, the trouble will be referred back to McLeod and charges will apply for trouble isolation.

1.4.3 When combining separately ordered elements or an element to collocated equipment, the McLeod will have responsibility for testing its equipment, network

facilities and the Unbundled Loop facility. If USWC performs tests of the Unbundled Loop facility at McLeod's request, and the fault is not in USWC's facilities, a trouble isolation charge shall apply.

**Amendment No. 4 to the Interconnection Agreement
Between
McLeodUSA Telecommunications Services, Inc.
and
USWC Communications, Inc.
For the State of North Dakota**

This Amendment No. 4 ("Amendment") is made and entered into by and between McLeodUSA Telecommunications Services, Inc. ("McLeod") and USWC Communications, Inc. ("USWC").

RECITALS

McLeod and USWC entered into that certain Interconnection Agreement for service in the state of North Dakota which was approved by the North Dakota Public Service Commission on May 26, 1999 (the "Agreement"); and

McLeod and USWC wish to amend the Agreement under the terms, conditions, and rates contained herein;

NOW THEREFORE, the Parties agree to the following:

1. Amendment Terms.

This Amendment is made in order to add the terms, conditions, and rates for Interconnection Distribution Frames ("ICDF") as set forth in Attachment 1, attached hereto and incorporated herein, to this Amendment.

2. Effective Date.

This Amendment shall be deemed effective upon approval by the appropriate state Commission; however, the Parties may agree to implement the provisions of this Amendment upon execution.

3. Further Amendments.

Except as modified herein, the provisions of the Agreement shall remain in full force and effect. Neither the Agreement nor this Amendment may be further amended or altered except by written instrument executed by an authorized representative of both parties.

The parties intending to be legally bound have executed this Amendment as of the dates set forth below, in multiple counterparts, each of which is deemed an original, but all of which shall constitute one and the same instrument.

ATTACHMENT 1

1. Interconnection Distribution Frames ("ICDF")

1.1 Description

1.1.1 Interconnection Distribution Frame Collocation (ICDF) -- is offered for the purpose of facilitating McLeod's combining of unbundled network elements and ancillary services. Under ICDF Collocation, McLeod need not collocate equipment in the U S WEST Wire Center. With ICDF Collocation, McLeod will have access to the U S WEST Wire Center and an Interconnection Distribution Frame (ICDF) to combine UNEs and ancillary services. The ICDF connects through tie cables to various points within the Wire Center (e.g., MDF, COSMIC or DSX, etc.) providing McLeod with access to UNEs and ancillary services.

1.1.1.1 The ICDF is a distribution frame shared by multiple providers. If McLeod desires a dedicated distribution frame for the purpose of facilitating McLeod's combination of UNEs and ancillary services, McLeod may do so through the placement of a McLeod-owned cross connection device collocated in the U S WEST Wire Center through either Caged or Cageless Physical Collocation.

1.2 Terms and Conditions

1.2.1 Interconnection Distribution Frame (ICDF) Collocation is available for CLECs who have not obtained Caged or Cageless Physical Collocation, but who require access to the U S WEST Wire Center for combining unbundled network elements and ancillary services. ICDF Collocation provides CLECs with access to the Interconnection Distribution Frame, where U S WEST will terminate the unbundled network elements and ancillary services ordered by McLeod. McLeod may combine one UNE to another UNE or ancillary service by running a jumper on the ICDF. McLeod access to the ICDF will be on the same terms and conditions described for other types of Collocation in this Section.

1.2.2 All U S WEST terminations on the Interconnection Distribution Frame will be given a frame address. U S WEST will establish and maintain frame address records for U S WEST terminations. U S WEST will maintain assignment records for each unbundled network element and ancillary service ordered by McLeod that is terminated on the Interconnection Distribution Frame. U S WEST will provide McLeod with the frame assignments for each unbundled network element and ancillary service terminated on the ICDF.

1.2.3 McLeod will be required to place the jumper connection between frame addresses to connect unbundled loops, ancillary and finished services.

McLeod will be required to maintain the records for McLeod-provided jumpers.

- 1.2.4 To the extent that McLeod's requested use of the Interconnection Distribution Frame results in U S WEST incurring building or frame additions other than the ICDF, construction charges will apply.

1.3 Rate Elements

- 1.3.1 The charges for ICDF Collocation are the non-recurring and recurring charges associated with the unbundled network elements or ancillary services ordered by McLeod, the cost of extending the unbundled network elements or ancillary services to the demarcation point, which are recovered through the ITP charges described below, and the Security charge, described in the following paragraph. These rates are contained in Exhibit A.

1.3.1.1 U S WEST will provide a connection between unbundled network elements and a demarcation point. Such connection is an Interconnection Tie Pair (ITP). An ITP is required for each unbundled network element, ancillary service or interconnection service delivered to McLeod. The ITP provides the connection between the unbundled network element or interconnection service and the ICDF or demarcation point. The ITP is ordered in conjunction with a UNE. There is a recurring and nonrecurring charge for the ITP as contained in Exhibit A. The ITP may be ordered per termination. The demarcation point shall be:

- a) at McLeod-provided cross-connection equipment located in McLeod's Virtual or Physical Collocation Space; or
- b) if McLeod elects to use ICDF Collocation, at the Interconnection Distribution Frame (ICDF); or
- c) if McLeod elects to use an ICDF in association with Virtual or Physical Collocation, at the ICDF; or
- d) at another demarcation point mutually-agreed to by the parties.

1.3.1.2 Security Charge. This charge applies to the keys/card and card readers, required for McLeod access to the U S WEST Central Office for the purpose of Collocation. Charges are assessed per McLeod employee, per card on a monthly basis. Video cameras and other Central Office Security infrastructure may be required and will be assessed on an Individual Case Basis.

1.4 Ordering

1.4.1 Ordering - Interconnection Distribution Frame Collocation

- 1.4.1.1 McLeod shall submit an ICDF Collocation Order Form to U S WEST. The ICDF Collocation Order Form shall include a McLeod-provided eighteen (18) month forecast of demand, by DS0, DS1 and DS3 capacities, that will be terminated on the Interconnection Distribution Frame by U S WEST on behalf of McLeod. Such forecasts shall be used by U S WEST to determine the sizing of required tie cables and the terminations on each Interconnection Distribution Frame as well as the various other frames within the U S WEST Central Office.
- 1.4.1.2 Upon receipt of an ICDF Collocation Order Form, U S WEST will verify if ICDF Collocation capacity is available within a requested Central Office. Verification of ICDF capacity will be completed within seven (7) calendar days. In those Central Offices where ICDFs have not been previously placed, U S WEST will make ICDFs available within ninety (90) calendar days of verification.
- 1.4.1.3 When ordering UNEs or ancillary services to be terminated on the Interconnection Distribution Frame, each UNE or ancillary service is ordered separately, using the existing ordering forms and intervals for the specific UNE or ancillary service.

1.5 Billing

1.5.1 Billing

- 1.5.1.1 Upon completion of the Collocation construction activities and payment of the remaining nonrecurring balance, U S WEST will provide McLeod a completion package that will initiate the recurring Collocation charges. Once this completion package has been signed by McLeod and U S WEST, and U S WEST has received the final 50% balance, McLeod may begin submitting service order requests for U S WEST transport services and/or UNEs or ancillary services.
- 1.5.1.2 In the event U S WEST has completed all associated construction activities and McLeod has not completed its associated activities (e.g., delivering fiber to the C-POI, or providing the equipment cables for connecting to the Interconnection Distribution Frame), U S WEST will bill an adjusted amount of the remaining nonrecurring balance, and close the job, and begin billing the monthly recurring rent charge. In those instances where the job is delayed due to McLeod not having its fiber to the POI, U S WEST will request the balance due minus the dollar amount specific to this work activity, and begin billing the monthly recurring rent charge. Once McLeod has completed fiber placement, McLeod can request U S WEST to return and complete the splicing activity at the rate reflected in this Agreement. In the case of missing

equipment cables, McLeod will be responsible for installing the cables if not delivered at job completion. The installation activity must be conducted by a U S WEST approved vendor and follow the designated racking route. Final test and turn-up will be performed under the maintenance and repair process contained herein.

1.6 Maintenance and Repair

1.6.1 Interconnection Distribution Frame

- 1.6.1.1 McLeod is responsible for block and jumper inventory and maintenance at the Interconnection Distribution Frame and using correct procedures to dress and terminate jumpers on the ICDF, including using fanning strips, retaining rings, and having jumper wire on hand, as needed. Additionally, McLeod is required to provide its own tools for such operations.

EXHIBIT A – NORTH DAKOTA RATES*

		Recurring	Nonrecurring
Quote Preparation Fee			\$1,684.80
Security			
Per Employee, per Card		\$6.21 ¹	
Central Office Security Infrastructure		ICB ²	ICB ²
Engineering Labor, per Half Hour
