Dear Mr. Maus:

On November 22, 2000, the Commission issued Certificate of Public Convenience and Necessity No. 4603 to McKenzie Consolidated Telcom, LLC to provide facilities-based local exchange telecommunications services in the Watford City, North Dakota exchange, Case No. PU-2386-00-444. The certificate is enclosed.

The Commission maintains a mailing list of telecommunications companies to which we mail notices relating to telecommunications issues. These notices are also published on the web site for your review ([HTTP://PC6.PSC.STATE.ND.US](http://PC6.PSC.STATE.ND.US) or [HTTP://WWW.STATE.ND.US](http://WWW.STATE.ND.US) (under "North Dakota State Government)).

In an effort to cut down on printing and mailing costs, I will **not** add this company to that list unless you request that I do so. You can contact me at 701-328-4076, FAX 701-328-2410, E-Mail msmail.sdh@oracle.psc.state.nd.us, or write.

Sincerely,

Sharon Helbling

Case No. PU-2386-00-444

ORDER

November 22, 2000

On August 28, 2000, McKenzie Consolidated Telcom, LLC (MCT) filed an application for a certificate of public convenience and necessity to provide facilities-based competitive local exchange telecommunications services in the Watford City exchange in North Dakota.

On September 20, 2000, the Commission issued a Notice of Opportunity for Hearing, which provided until October 24th for receiving comments or hearing requests. No comments or requests for hearing were received. The notice identified the following issues to be considered:

1. Fitness and ability of the applicant to provide service.
2. Adequacy of the proposed service.
3. The technical, financial and managerial ability of the applicant to provide service.

On November 1, 2000, the Public Service Commission's Director of Accounting filed a memorandum indicating that MCT has the financial ability to provide telecommunications service.

MCT is a North Dakota Limited Liability Company owned by Consolidated Telcom and McKenzie Electric Cooperative with each entity holding a 50% interest. MCT's management team is the same as that of Consolidated Telcom, an incumbent local exchange carrier in North Dakota. The Commission finds MCT is fit, able, and has the technical, financial and managerial ability to provide service.

MCT intends to provide facilities-based competitive local exchange service, through an overbuild of existing facilities in Watford City. MCT will also offer vertical and other non-essential services including DSL for both business and residential customers. The Commission finds MCT's proposed service is adequate.

Order

The Commission Orders:

1. The application of McKenzie Consolidated Telcom, LLC. for a certificate of public convenience and necessity to provide facilities-based competitive local exchange services in the Watford City exchange in North Dakota is GRANTED.
2. MCT's certificate of public convenience and necessity shall require that it secure such approval from the local governing entity as required by state and federal law prior to providing service in any local territory.

Case No. PU-2386-00-444

The following is written to provide the commission with a very limited review of this case regarding the financial ability of the applicant to provide service in North Dakota.

According to financial information provided for the year ended December 31, 1999, the applicant has sufficient equity to provide service in North Dakota.

The Telecommunications Act of 1996 established a national policy to create a competitive environment for telephone service. The applicant is one of many companies responding to the Act.

I see no reason to deny the applicant's request.

In accordance with the Commission's wishes, I have served this document on the applicant.

Docket No. _____

I. INTRODUCTION

McKenzie Consolidated Telcom, LLC, ("MCT") hereby files its application for local exchange service authority in the Watford City exchange in the State of North Dakota pursuant to North Dakota Century Code ("NDCC") Sections 49-03.01 and 49-21.02. MCT is owned by Consolidated Telcom and McKenzie Electric Cooperative. Each of the members owns a 50% interest. Consolidated Telcom has been providing local exchange telephone service in North Dakota since 1961.

The Federal Telecommunications Act of 1996 (the "Federal Act") enables this Commission to continue and build upon its pro-competitive policies to assure that consumers will receive new, innovative, lower-priced and high-quality telecommunications services. A primary purpose of the Federal Act is to promote the development of competition in the local exchange services markets. See 47 U.S.C. § 251 et seq. As a threshold matter, the Federal Act contemplates simplifying and reducing existing regulation to expedite entry by new local exchange carriers, by removing barriers to entry. 47 U.S.C. Section 253(a) provides:

No state or local statute, regulation or other state or local legal requirement, may prohibit or have the effect of prohibiting the ability of any entity to provide any interstate or intrastate telecommunications service.

Given the Federal Act's pro-competitive policies, as well as MCT's technical, managerial and financial resources and abilities, MCT respectfully requests that the Commission expeditiously issue a certificate to include local exchange service authority for the Watford City exchange. There are no public policy considerations that would require a delay in issuance of this certification or a hearing on this matter. MCT provides the following verified information in support of this application.

II. APPLICATION

MCT applies to the North Dakota Public Service Commission ("Commission"), pursuant to Sections 49-03.01 and 49-21-02, NDCC, and Section 69-02-02-04 of the Commission's Rules of Practice and Procedure ("Commission's Rules") for a Certificate of Public Convenience and Necessity ("CPCN") to provide local exchange service in certain areas in North Dakota.

A. DESCRIPTION OF THE APPLICATION

This application is filed pursuant to NDCC Sections 49-03.1 and 49-21-02, and Rules 69-02-02-04 and 69-09-05-04.2.a of the Commission's Rules. This Application includes the following exhibits:

Exhibit A - Consolidated Telcom's 1999 Annual Report

Exhibit B - McKenzie Electric Cooperative's 1999 Annual Report

Exhibit C - Copy of MCT's Articles of Organization

B. IDENTIFICATION OF THE APPLICANT

The name and address of the Applicant is:

McKenzie Consolidated Telcom LLC
P.O. Box 1408
Dickinson, ND 58602-1408

All correspondence regarding this Application should be directed to:

L. Dan Wilhelmson
Consolidated Telcom
P.O. Box 1408
Dickinson, ND 58602-1408

C. DESCRIPTION OF SERVICES TO BE PROVIDED

MCT applies to offer local exchange telecommunications service to residential and business customers. MCT intends to provide local service on a facilities basis.

D. LEGAL STANDARDS GOVERNING GRANT OF CPCN

Under NDCC, Section 49-03.1-04, the Commission takes into consideration the following factors prior to granting a CPCN: (1) the need for the service; (2) the fitness and ability to provide service; (3) the effect on other public utilities providing similar service; (4) the adequacy of proposed service; and (5) the technical, financial and managerial ability of the applicant to provide service.

1. Need for the Service

The Federal Act was enacted because of Congress' determination that competition in the local exchange markets should be developed in order to obtain lower prices and greater service options for consumers. Thus, the Commission need not require further findings

as to the need for additional local services in North Dakota. 47 U.S.C. §235(a).

2. Fitness and Ability to Provide Service

See Section 5 below.

3. Effect on Other Public Utilities Providing Similar Service

The Federal Act eliminates the need to consider the effect, if any, on other utilities other than areas served by rural telephone companies from MCT's request for authority to provide local service in North Dakota. See 47 U.S.C. §251 et seq.

4. Adequacy of Proposed Service

MCT will provide high quality telecommunications services in North Dakota. Exhibit D describes MCT's proposed service offerings. Exhibit E is a schematic diagram of the proposed overbuild.

5. Technical, Financial and Managerial Ability

Exhibit F is a description of MCT's technical and managerial team that has the ability to provide local service in North Dakota. The necessary financial ability is demonstrated in Exhibits A and B. MCT will contract with Consolidated Communications Networks, Inc., and Consolidated Telcom to provide the technical and managerial expertise to provide the service.

III. CONCLUSION

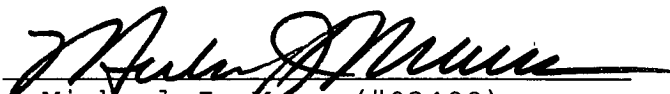

History has demonstrated the many benefits of competition in the interexchange market. The public interest can now be served by promptly granting MCT's application for local service authority. Consolidated Telcom, one of MCT's companies, is a proven leader in providing high quality telecommunications services. To the extent, however, that any incumbent local service provider may attempt to raise barriers to MCT's entry into the local service markets in

North Dakota, such tactics should not be sanctioned by the Commission because the Federal Act provides yet another tool for this Commission to use in assuring that consumer's benefit from competition. MCT respectfully requests that this Commission issue an Order granting MCT's application for a certificate including local service authority expeditiously in order to assure that consumers begin to enjoy the benefits of competition intended by both the federal and state legislation.

Dated this 14th day of August, 2000.
