Permit KRGC-8101

RE: Phase III Final 100% Bond Release No. 4, Knife River Corporation, Gascoyne Mine, Permit #KRGC-8101.

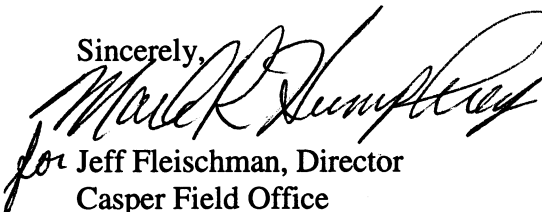

Dear Mr. Deutsch:

Casper Field Office has received Bond Release Application No. 4 for Phase III 100% Bond Release. This bond release application includes Federal Lands therefore; Office of Surface Mining (OSM) concurrence will be needed.

The Reclamation Division and the Casper Field Office inspected the requested bond release area on June 15, 2006. The Reclamation Division has completed its review of the application for bond release and has documented that all required items have been addressed.

The CFO reviewed the bond release application for compliance with all other non-SMCRA Federal requirements. There are no unfulfilled requirements that would preclude the release of bond. OSM concurs with the recommendation for approval of the bond release application.

If you have any questions, please contact Gene Robinson of the Casper Field Office at 307/261-6540.

Sincerely,  
  
for Jeff Fleischman, Director  
Casper Field Office
