On July 11, 2003, Qwest filed for approval of an amendment to its paging interconnection agreement with WaveSent LLC, Case No. PU-2823-03-400. On July 14, 2003 Qwest filed for approval of an amendment negotiated to its paging interconnection agreement with Page Data, Case No. PU-2822-03-401. These amendments add terms and conditions for Single Point of Presence in the LATA.

On July 28, 2003, Qwest filed for approval of an amendment negotiated to its interconnection agreement with Preferred Carrier Services, Inc. of Irving, TX, Case No. PU-2482-03-439. This amendment adds terms and conditions for Qwest's Performance Assurance Plan with Performance Indicator Definitions.

On August 4, 2003, Qwest filed for approval of an amendment negotiated to its interconnection agreement with MCImetro Access Transmission Service LLC, Case No. PU-2800-03-451. This amendment adds rates, terms and conditions for Collocation Available Inventory.

These agreements were filed under Section 252(e) of the Telecommunications Act of 1996 (Act). The Act requires that any agreement adopted by negotiation or arbitration be submitted for approval to the Commission. Under section 252(e)(2)(A), the Commission may only reject an agreement (or portion thereof) adopted by negotiation if it finds that:

1. the agreement (or portion thereof) discriminates against a telecommunications carrier that was not a party to the agreement;
2. the implementation of the agreement (or portion thereof) is not consistent with the public interest, convenience, and necessity.

In addition, the Commission may include in its review state requirements that do not constitute barriers to entry under section 253.

On August 13, 2003, the Commission issued a Notice of Opportunity to File Written Comments, which provided that the Commission would receive comments on the agreements until September 16, 2003. No comments have been received.

The Commission has reviewed the agreements and does not find them discriminatory against a telecommunications carrier that was not a party to the agreements. The Commission finds that implementation of the agreements is not inconsistent with the public interest, convenience and necessity.

Order

The Commission orders:

1. The captioned interconnection agreements are APPROVED.
2. The Commission retains continuing jurisdiction over the agreements at all times.
3. Notice of any changes to the agreements must be filed promptly with the Commission.

4. The agreements must not be assigned, assumed or otherwise transferred without the approval of the Commission.

**CLEC-to-CLEC Cross Connections Amendment
to the
Interconnection Agreement
between
Qwest Corporation
and
Integra Telecom of North Dakota, Inc.**

This Amendment ("Amendment") is by and between Integra Telecom of North Dakota, Inc. (f/k/a InfoTel Communications) ("CLEC"), and Qwest Corporation (f/k/a U S WEST Communications, Inc.) ("Qwest"), a Colorado corporation.

RECITALS

WHEREAS, the Parties entered into an Interconnection Agreement, for service in the State of North Dakota, that was approved by the North Dakota Public Service Commission on September 29, 1997, as referenced in Case No. PU-1753-97-532 ("Agreement"); and

WHEREAS, the Parties wish to amend the Agreement by adding the terms and conditions contained herein.

AGREEMENT

NOW THEREFORE, in consideration of the mutual terms, covenants and conditions contained in this Amendment and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Parties agree as follows:

1. Amendment Terms

The Agreement is hereby amended by adding the terms, conditions and rates for CLEC-to-CLEC Cross Connections, as set forth in Attachment 1 and Exhibit A, attached hereto and incorporated herein.

2. Effective Date

This Amendment shall be deemed effective upon Commission approval; however, the Parties may agree to implement the provisions of this Amendment upon execution. To accommodate this need, CLEC must generate, if necessary, an updated Customer Questionnaire. In addition to the Questionnaire, all system updates will need to be completed by Qwest. CLEC will be notified when all system changes have been made. Actual order processing may begin once these requirements have been met.

3. Amendments; Waivers

The provisions of this Amendment, including the provisions of this sentence, may not be amended, modified or supplemented, and waivers or consents to departures from the provisions of this Amendment may not be given without the written consent thereto by both Parties' authorized representative. No waiver by any Party of any default, misrepresentation, or breach of warranty or covenant hereunder, whether intentional or not, will be deemed to extend to any prior or subsequent default, misrepresentation, or breach of warranty or covenant hereunder or affect in any way any rights arising by virtue of any prior or subsequent such occurrence.

4. Entire Agreement

This Amendment (including the documents referred to herein) constitutes the full and entire understanding and agreement between the Parties with regard to the subjects of this Amendment and supersedes any prior understandings, agreements, amendments or representations by or between the Parties, written or oral, to the extent they relate in any way to the subjects of this Amendment.

The Parties intending to be legally bound have executed this Amendment as of the dates set forth below, in multiple counterparts, each of which is deemed an original, but all of which shall constitute one and the same instrument.

CLEC-to-CLEC Cross Connections

1.1 Qwest shall design and engineer the most efficient route and cable racking for the connection between CLEC's equipment in its collocated spaces to the collocated equipment of another CLEC located in the same Qwest Premises; or to CLEC's own non-contiguous Collocation space. The most efficient route generally will be over existing cable racking, to the extent Technically Feasible, but to determine the most efficient route and cable racking, Qwest shall consider all information provided by CLEC in the Application form, including but not limited to, distance limitations of the facilities CLEC intends to use for the connection. If the length of the most efficient route exceeds any such distance limitations, Qwest will notify CLEC of available options. When CLEC notifies Qwest of CLEC's preferred option, Qwest will proceed with the route design and quote preparation. If CLEC elects to have Qwest provide the channel regeneration, the quote will include the applicable charges. CLEC shall have access to the designated route and construct such connection, using copper, coax, optical fiber facilities, or any other Technically Feasible method utilizing a vendor of CLEC's own choosing. CLEC may place its own fiber, coax, copper cable, or any other Technically Feasible connecting facilities outside of the actual physical Collocation space, subject only to reasonable NEBS Level 1 safety limitations using the route specified by Qwest. CLEC may perform such Interconnections at the ICDF, if desired. CLEC may interconnect its network as described herein to any other collocating Carrier, to any collocated Affiliate of CLEC, to any end user's Premises, and may interconnect CLEC's own collocated space and/or equipment (e.g., CLEC's Physical Collocation and CLEC's Virtual Collocation on the same Premises). CLEC-to-CLEC Connections shall be ordered either as part of an Application for Collocation under the Agreement, or separately from a Collocation Application in accordance with Section 1.2 below. CLEC-to-CLEC Cross Connections at an ICDF are available, as follows:

1.1.1 CLEC-to-CLEC Cross Connections at the ICDF.

1.1.1.1 CLEC-to-CLEC Cross Connection (COCC-X) is defined as CLEC's capability to order a Cross Connection from its Collocation in a Qwest Premises to its non-adjacent Collocation space or to another CLEC's Collocation within the same Qwest Premises at the ICDF.

1.1.1.2 Qwest will provide the capability to combine these separate Collocations through an Interconnection Distribution Frame (ICDF). This is accomplished by the use of CLECs' Connecting Facility Assignment (CFA) terminations residing at an ICDF. Also, ICDF Cross Connections must terminate on the same ICDF at the same service rate level.

1.1.1.3 If CLEC has its own Dedicated ICDF, the CLEC is responsible for ordering tie cables to the common ICDF frame/bay where the other CLEC resides. These tie cables would be ordered through the existing Collocation Application form.

1.1.1.4 CLEC is responsible for the end-to-end service design that uses ICDF Cross Connection to ensure that the resulting service meets its

Customer's needs. This is accomplished by CLEC using the Design Layout Record (DLR) for the service connection. Depending on the distance parameters of the combination, regeneration may be required.

1.1.1.5 If two CLECs are involved, one CLEC acts as the "ordering" CLEC. The ordering CLEC identifies both connection CFA's on the ASR. CLEC requests service order activity by using the standard ASR forms. These forms are agreed upon nationally at the OBF (Ordering and Billing Forum). Refer to the DMP (Document Management Platform)/Carrier/Carrier Centers/"A"/"ASOG" for copies of all forms including definitions of the fields. CLEC is responsible for obtaining these forms. Qwest must not reproduce copies for its Customers, as this is a copyright violation. The standard industry forms for CLEC-to-CLEC Cross Connections (COCC-X) are: Access Service Request (ASR), Special Access (SPE) and Additional Circuit Information (ACI).

1.2 Ordering – CLEC to CLEC Connections

1.2.1 Application -- Upon receipt of the applicable portions of a complete Collocation Application, Qwest will perform a feasibility study to determine if adequate cable racking can be found for the placement of CLEC's copper, coax, or fiber optic cable, or any other Technically Feasible method used to interconnect CLEC's collocated equipment that is in separate locations in the same Qwest Premises, or to another CLEC's equipment in the same Premises. The feasibility study will be provided within ten (10) calendar Days from date of receipt of a complete Application

1.2.1.1 If Qwest determines that the Application is not complete, Qwest shall notify CLEC of any deficiencies within ten (10) calendar Days of the Application. Qwest shall provide sufficient detail so that CLEC has a reasonable opportunity to cure each deficiency. To retain its place in the Collocation queue for the requested Premises, CLEC must cure any deficiencies in its Application and resubmit the Application within ten (10) calendar Days after being advised of the deficiencies.

1.2.2 Quotation -- If existing cable racking is available, Qwest will provide CLEC with a quote and the specific cable rack route to CLEC with the feasibility study. If additional cable racking is required to accommodate CLEC's request, Qwest shall provide a feasibility and quote to CLEC no later than ten (10) calendar Days of receipt of Collocation Application. CLEC-to-CLEC Connection quotes will be honored for thirty (30) calendar Days from the date the quote is provided. During this period, the space is reserved pending CLEC's Acceptance of the quoted charges.

1.2.3 Acceptance -- There are two forms of Acceptance for CLEC-to-CLEC Connections:

1.2.3.1 CLEC-to-CLEC connections with existing cable rack. – CLEC must submit payment of one hundred percent (100%) of the quoted nonrecurring charges with its Acceptance. Upon receipt of a complete Collocation Acceptance, CLEC may begin placement of its copper, coax, or fiber cables along the Qwest designated cable rack route. Recurring charges will begin with

CLEC Acceptance.

1.2.3.2 CLEC-to-CLEC Connections using new cable rack. – Upon receipt of a complete Acceptance from CLEC, Qwest will begin construction of the new cable rack.

1.2.4 Interval – Pursuant to Section 1.2.3.2 above, the construction interval for CLEC-to-CLEC-Connections requiring the construction of new cable rack by Qwest shall be within sixty (60) calendar Days of the receipt of the complete Collocation Acceptance. If CLEC submits its Acceptance more than thirty (30) calendar Days after receipt of the Qwest quotation, the Application shall be resubmitted by CLEC.
