Dear Mr. Kuhns:

Thank you for the request for approval of turbine location changes, which is currently under staff review. Per the Commission's Order issuing the site certificate, and as we discussed over the telephone, please be advised that no changes can be made to turbine locations until an approval is received.

Please let me know if you have any questions. Thanks.

Jerry Lein

Good Day Mr. J. Lein: Just wanted to touch base with you and ascertain that you received the full disclosure of Turbine Relocations that I had sent earlier this week. This will be all that can be done this year as the project is going to shut down for the winter early next week. Winter weather conditions now are such that we cannot effectively make further progress and it is also a safety consideration for our manpower. Iberdrola will assign Mr. Raymond Fletcher as the Rugby Wind LLC Site Manager when construction resumes in the Spring. Mr. R. Fletcher will have these contact numbers when here next Spring: Office Phone (701) 776-2706 and (701) 776-2708 along with Telefax No. (701) 776-2707. There will be one (1) more Rugby Wind Weekly Report which you should receive next week. I have enjoyed my brief tenure here and Thank-you for your assistance and consideration on behalf of the North Dakota PSC. Regards, Dennis
