RE: Case Nos. PU-05-184 and PU-05-185: Woody vegetation survival

Dear Mr. Holli:

Your September 30, 2008 letter requesting that the Public Service Commission close the tree monitoring requirement in Case Nos. PU-05-184 and PU-05-185 was discussed at the Commission's October 8, 2008 administrative meeting.

The Commissioners concluded that the tree monitoring should continue, that additional trees should be planted, that no additional shrubs should be planted at this time, and that Plains Pipeline should continue to file annual reports on or shortly before October 1 of each year to the Commission documenting work completion and condition of woodlands planting.

If you have any questions, please call me at 701-328-4077.

Sincerely

Patrick Fahn  
Director, Division of Competitive Markets and  
Regulatory Compliance
