Jerry/Annette

Thank you for your participation in yesterday's conference, attached is the Minutes, and the Attendance List.

I will send you a package of the required permits when all have been attained which should be within the next week.

This message is also serving as FPL Energy's notice to the PSC that we are intending to start construction within the next week, actual soil disturbance is contingent upon issuance of the FONSI relative to the EA.

Please call me if you have any questions.
