**PUBLIC SERVICE COMMISSION**

**Enbridge Pipelines (North Dakota) LLC  
Crude Oil Pumping Stations-McKenzie-Williams  
Ctys  
Siting Application**

**Case No. PU-05-274**

**NOTICE OF FILING AND NOTICE OF OPPORTUNITY FOR HEARING**

**May 24, 2005**

On May 2, 2005, Enbridge Pipelines (North Dakota) LLC (Enbridge) filed a consolidated letter of intent and request for waiver of procedures and time schedules, and a request to amend its existing corridor or route permit. Enbridge proposes to construct a new 1500 horsepower pumping station on its existing Beaver Lodge to Alexander Station crude oil pipeline. The new station will be located in the SE1/4 of Section 36, Township 156 North, Range 100 West, Williams County, and will be known as the East Fork Station. Enbridge also proposes to upgrade the existing Alexander Pump Station and Trenton Pump Station of that pipeline.

Enbridge asserts that these pipeline facilities will produce minimal adverse effects and requests that the Commission (1) waive the separate filing of a Letter of Intent and the one-year time period for filing an application; (2) waive provisions of law and rule that require filing of separate applications, separate hearings and certain time schedules; (3) not hold a public hearing, but instead publish a notice of opportunity for hearing; (4) find that the proposed facility is of such length, design, location and purpose that it will produce minimal adverse effects; (5) provide in the notice of opportunity for hearing that requests for hearing be made in not more than ten days under N.D.C.C. section 49-22-13(4); and (6) designate and approve the amended corridor certificate or issue the appropriate amended route permit.

The issues to be considered in this proceeding are:

1. Will the location, construction, and operation of the proposed pipeline facilities produce minimal adverse effects on the environment and upon the welfare of the citizens of North Dakota?
2. Are the proposed pipeline facilities compatible with the environmental preservation and the efficient use of resources?
3. Will the proposed pipeline facilities locations minimize adverse human and environmental impact while ensuring continuing

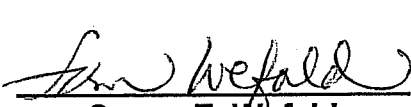

system reliability and integrity and ensuring that energy needs are met and fulfilled in an orderly and timely fashion?

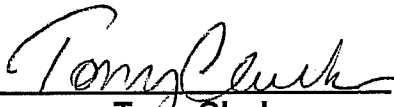

4. Are the proposed pipeline facilities of such length, design, location, or purpose that they will produce minimal adverse effects so that procedures and time schedules may be waived?
5. Does a demonstrable emergency exist, which requires immediate construction so that adherence to procedures and time schedules would jeopardize the utility's system?
6. Is it appropriate for the Commission to waive any procedures and time schedules as requested in the application?

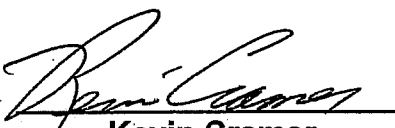

Those interested are invited to comment on the application in writing. Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. Comments and requests for hearings must be received by **June 24, 2005**. If deemed appropriate, the Commission can determine the matter without a hearing.

For more information contact the Public Service Commission, State Capitol, Bismarck, North Dakota 58505, 701-328-2400; or Relay North Dakota 1-800-366-6888 TTY. If you require any auxiliary aids or services, such as readers, signers, or braille materials please notify Ilona A. Jeffcoat-Sacco, Executive Secretary, at least 24 hours in advance.
