Subject: Enbridge Energy Project Update as of 8-23-05

Dear Mr. Fahn

Please find below project update as of 8-23-05.

Progress to date:

1. Completed telephone line relocations at East Fork
2. Currently we have not started the main construction work. The initial construction bids that we got in put us over budget so we have adjusted the project scope and are currently rebidding the project construction work.

Our new schedule is as follows:

- Receive bids on 8-25-05
- Award contract by 8-30-05
- Start Construction 9-6-05
- Project inservice date 11-18-05

The scope of work adjustment includes the following:

- Delete cable tray and associated foundations at Trenton and Alexander
- Delete flow meters at Trenton and Alexander
- Changed pump configuration from parallel to series at Alexander

There were no changes in the scope of work for the East Fork Station. The adjustments listed above do not change the scope of the project as stated in our application.

Please call if you have questions.

Sincerely,

John H. Pechin
