Subject: Enbridge Energy Project Update as of 1-17-06

Dear Mr. Fahn,

The only work that took place last week was at the Alexander station. Contractor worked on drilling and setting pump skid mounting bolts for pump #1. Due to the lack of progress we have reset the commissioning schedule back to start on 1-16-06.

Progress as of January 17, 2006

East Fork

1. Project work is complete except for minor punchlist items to be completed in spring of 2006.

Trenton

1. Project work is complete except for minor punchlist items to be completed in spring of 2006.

Alexander

1. Completed mounting pump #1 onto existing foundation.
2. Completed installation of suction, discharge, and pump drain piping.
3. Started commissioning pump #1 on 1-16-05. There has been some difficulties with the pump starter and one of the pump valves. We expect to work through the issues and complete commissioning this week.

Schedule

Forecast has been updated based on progress to date:

Trenton inservice - Completed on Nov 6, 2005

East Fork in service - Completed Nov 30, 2005

Alexander in service - Completed pump #2 on Dec 19, 2005

Alexander in service - Pump #1 scheduled for Jan 19, 2006

Safety

No issue this report period.

Weather

No issue this report period.

Please call if you have questions.

Sincerely,

John H. Pechin
