Subject: Thousands Block Reclamation list_March 2008

Patrick Fahn
North Dakota Public Service Commission

Attached for your review and action is a list of assigned thousands-blocks for which Part 4 forms have not been received during the six-month period following the block effective dates. This list supplements the information provided to you in previous months.

Receipt of the Part 4 form indicates that the assignee has placed the thousands-block in service. The FCC's NRO order authorized State Commissions to decide the disposition of these blocks. For example, you could instruct Number Pooling to reclaim these blocks, or you could extend the time the service providers have to put the blocks in service.

On or before the last business day of each calendar month, please update the attached list with one of the following categories:

Part 4 Received = Part 4 form has been received by the Commission

Pending = Investigation still in progress or extension granted by the Commission

Reclaim = Commission has concluded investigations and instructs Pooling to reclaim the block

Please forward the updated Reclamation List and copies of any received Part 4 forms to:

Subject: numbering issues

On March 6, 2008 I received an email from NeuStar concerning two blocks of numbers that had been requested by Verizon Wireless-ND, one in the Bismarck exchange and one in the Fargo exchange. NeuStar had not received notification whether the Verizon had activated the number blocks. I have subsequently received Verizon's paperwork (Part 4 form) indicating that the number blocks have been activated for use. I will ask NeuStar to accept the Part 4 documents on March 17 unless Commissioners direct otherwise. I will then include this item on the March 26 consent agenda for the Commission to acknowledge the action.
