Subject: **Reclamation List for October 2008**

Attached for your review and action is a list of assigned central office codes for which Part 4 forms have not been received during the six-month period following the original code assignment effective date. This list supplements the information provided to you in previous months.

Receipt of the Part 4 form indicates that the code holder has placed the assigned central office code in service. The Federal Communications

Commission's NRO order authorized state commissions to decide the disposition of these codes.¹ For example, you could instruct NANPA to reclaim these codes, or you could extend the time the service providers have to put the codes in service.

Please review the attached October 2008 Reclamation List and review the Central Office Code Reclamation State Processes posted on the NANPA web site (www.nanpa.com).

Per the Central Office Code Reclamation Management State Processes, please forward copies of all approved Part 4 forms to the NANPA Reclamation Group on or before the last business day of this month.

Should you have any questions, please direct them to the NANPA Reclamation Group at 571-434-5138.

Thank you,
Reclamation Department

Subject: numbering issues

On October 10, 2008 I received an email from NeuStar, Inc. concerning 5 blocks of numbers that had been requested by Midcontinent Communications – ND; one in each of the Bowman, Hettinger, Reeder, Rhame, and Scranton exchanges. NeuStar had not received notification whether Midcontinent had activated the number blocks. I have subsequently received Midcontinent's paperwork (Part 4 forms) indicating that the number blocks have been activated. Unless Commissioners direct otherwise, I will forward the Part 4s to the NANPA CO Code Administration Reclamation Group on October 27 and will ask that they be accepted. I will then include an item on the November 5 consent agenda for the Commission to acknowledge the action.
