Subject: Public Input on Promontory Pt 3

Annette – Mr. Harold Duchscherer called me today regarding Promontory Pt 3 Addition and the Complaint filed by Capital Electric. He has bought a lot there, and is planning to build a home there in the near future. He was concerned about power being turned off, due to the complaint being filed. I told him about the Boulder Ridge case, and explained that power has not been shut off to customers in that area as a result of the dispute.

He would like annexed areas of the city to be served by MDU. I explained the appeal process of the Boulder Ridge case, and the right that Capital Electric has to file a complaint under state law and the process of this case.

I encouraged him to give you a call if he has any questions about the process of this case in the future or if he would like to participate in the case in any way.

Mr. Harold Duchscherer can be reached at 224-1060.

Annette – would you please place these comments in the public input file for this case. Thank you.
