To all companies with ETC designation:

RE: Rural telecommunications carrier annual 47 C.F.R. § 54.314(d) certification

The Commission's August 28, 2002, order in Case No. PU-439-02-441 set forth the procedure to comply with the FCC requirement that rural telecommunications carriers receiving federal universal service funds use the support only as provided in Section 254(e) of the Telecommunications Act of 1996.

The Commission ordered that any telecommunications carrier providing local exchange service in North Dakota that desires to have Commission certification to the FCC under 47 C.F.R. §§54.313 or 54.314 shall file a sworn affidavit with the Commission by September 14 of each year. The sworn affidavit must be executed by a corporate officer certifying that the federal support the carrier receives is used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended as required by Section 254(e).

This letter is a reminder for rural companies providing local telecommunications service in North Dakota of the Commission's procedural timeline. Immediately following the September 14 due date for affidavits, the Commission will prepare an order for filing with the FCC by October 1.

If you have additional questions, feel free to call me at 701-328-4077.

Sincerely,

Patrick Fahn
Utility Analyst

I move the Commission adopt the Order regarding universal service certification for rural eligible telecommunications carriers, Case No. PU-06-316.

PUBLIC SERVICE COMMISSION

Public Service Commission
USF Use Certification 47CFR54.314 (2007)
Compliance

Case No. PU-06-316

ORDER

September 20, 2006

Section 254(e) of the Telecommunications Act of 1996 (Act) requires telecommunications carriers to use universal service support "only for the provision, maintenance, and upgrading of facilities and services for which support is intended." On May 23, 2001, the Federal Communications Commission (FCC) released its Fourteenth Report and Order, Twenty-Second Order on Reconsideration, and Further Notice of Proposed Rulemaking in CC Docket No. 96-45, and Report and Order in CC Docket No. 00-256 (Fourteenth R&O). The Fourteenth R&O requires that each state public utility regulatory authority file an annual certification with the FCC to ensure that rural telecommunications carriers receiving federal funds under the program use the support only as provided in Section 254(e) of the Act. State certification must be filed no later than October 1 of each year in order for certified telecommunications carriers to receive support for the following year, 47 C.F.R. § 54.314(d).

On August 28, 2002, the NDPSC issued an order in Case No. PU-439-02-441 indicating that any telecommunications carrier providing local exchange service in North Dakota that desires to have NDPSC certification to the FCC under 47 C.F.R. §§54.313 or 54.314 shall file an affidavit with the NDPSC by September 14 of each year, as described in the order, certifying that federal support they receive is used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended as required by Section 254(e). The NDPSC further ordered that affidavits filed with the NDPSC will be the basis for the NDPSC's certification to the FCC.

Affidavits regarding use of federal universal service support for the year 2007 were filed with the NDPSC by the companies listed in the ordering clause below.

Under North Dakota law, the NDPSC has limited jurisdiction over rural telecommunications carriers. The FCC in its order recognized that some states have only limited regulatory oversight to ensure that federal universal support is reflected in intrastate rates and concluded that such states may nonetheless certify to the FCC that carriers in the state had accounted to the state commission for receipt of federal support, and that the support will be used as required under Section 254(e). (See Fourteenth R&O at ¶ 188). The FCC also recognized that some carriers may not be subject to the jurisdiction of a state regulatory authority, and in those instances carriers

can certify directly to the FCC by means of a sworn affidavit executed by a corporate officer attesting to the use of the support only for purposes permitted under the Act. (See Fourteenth R&O at ¶ 189).

Based on the foregoing, the NDPSC issues the following:

Order

The NDPSC orders:

1. The NDPSC certifies that the following Eligible Telecommunications Carriers providing local exchange service in North Dakota have accounted to the NDPSC by affidavit that all federal support they receive is used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended as required by Section 254(e), or that they will only use the support they receive during the four quarters of 2007 (and all quarters thereafter) for the provision, maintenance, and upgrading of facilities and services for which the support is intended under and consistent with Section 254(e) of the Act and 47 C.F.R. § 54.101 throughout each respective company's study area:

RE: Rural telecommunications carrier annual 47 C.F.R. § 54.314(d) certification

The Commission's August 28, 2002 order in Case No. PU-439-02-441 (attached) set forth the procedure to comply with the FCC requirement that rural telecommunications carriers receiving federal universal service funds use the support only as provided in Section 254(e) of the Telecommunications Act of 1996.

The Commission ordered that any telecommunications carrier providing local exchange service in North Dakota that desires to have Commission certification to the FCC under 47 C.F.R. §§54.313 or 54.314 shall file a sworn affidavit with the Commission by September 14 of each year. The sworn affidavit must be executed by a corporate officer certifying that the federal support the carrier receive is used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended as required by Section 254(e).

This letter is a reminder for rural companies providing local telecommunications service in North Dakota of the Commission's procedural timeline. Immediately following the September 14 due date for affidavits, the Commission will prepare an order for filing with the FCC by October 1.

Case No. PU-439-02-441

ORDER

August 28, 2002

Section 254(e) of the Telecommunications Act of 1996 (Act) requires telecommunications carriers to use universal service support "only for the provision, maintenance, and upgrading of facilities and services for which support is intended." On May 23, 2001, the Federal Communications Commission (FCC) released its Fourteenth Report and Order, Twenty-Second Order on Reconsideration, and Further Notice of Proposed Rulemaking in CC Docket No. 96-45, and Report and Order in CC Docket No. 00-256 (Fourteenth R&O). The Fourteenth R&O requires that each state public utility regulatory authority file an annual certification with the FCC to ensure that rural telecommunications carriers receiving federal funds under the program use the support only as provided in Section 254(e) of the Act. State certification must be filed no later than October 1 of each year in order for certified telecommunications carriers to received support for the following year. 47 C.F.R. § 54.314(d).

On August 28, 2001 the Commission adopted an order setting forth a procedure to comply with the FCC certification requirement. The Commission will adopt this same procedure to be used each year that this October 1 certification continues to be required by the FCC. Any telecommunications carrier providing local exchange service in North Dakota that desires to have Commission certification to the FCC shall file a sworn affidavit with the Commission by September 14 of each year that is executed by a corporate officer certifying that the federal support they receive is used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended as required by Section 254(e).

Order

The Commission orders:

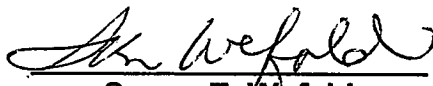

1. That any telecommunications carrier providing local exchange service in North Dakota that desires to have Commission certification to the FCC under 47 C.F.R. §§54.313 or 54.314 shall file an affidavit with the Commission by September 14 of each year, as described in this order, certifying that federal support they receive is used only

for the provision, maintenance, and upgrading of facilities and services for which the support is intended as required by Section 254(e).

2. Affidavits filed with the Commission under this order will be the basis for the Commission's certification to the FCC.
