In re: Enbridge Pipelines (North Dakota) LLC
Crude Oil Pumping Stations
Mountrail-McHenry-Ramsey-Grand Forks Counties Application
Case No. PU-06-349
Our File No. 120-27894

Dear Mr. Nitschke:

Enclosed for filing in the above captioned matter please find two copies of supplemental responses to Mr. Patrick Fahn's request dated August 19, 2015, regarding Final Construction Inspection Reports.

Please call should you have any questions.

Very truly yours,

North Dakota Pipeline Company LLC, dba NDPL LLC, formerly known as Enbridge Pipelines (North Dakota) LLC, provides the enclosed supplemental information in response to a request from Mr. Patrick Fahh dated August 18, 2015 regarding Final Construction Inspection Reports as detailed below.

NDPL's initial response was filed with the Commission on September 28, 2015. At that time, NDPL requested additional time to respond to the request for second- and third-year tree and shrub monitoring reports, confirming a 75 percent survival rate. A Supplement to Attachment F of the original filing is attached, completing Order Point 19.

PU-06-349

On June 13, 2011, the final inspection report was issued for the construction of the Blaisdell (Mountrail County), Denbigh (McHenry County), Penn (Ramsey County) and Larimore (Grand Forks County) Pump Stations (Case No. PU-06-349, Enbridge Pipelines (North Dakota) LLC, Crude Oil Pump Stations-Moun, McHe, Rams, GFor, Siting Application). In the report, it was noted that the Company had not yet complied with a number of Order Points. In order to comply with these order points, the Commission requests the following:

- Enbridge should provide a copy of the as built land descriptions for the Penn and Larimore stations to complete Order Point 3.
- Enbridge should provide a letter and any documentation to the Commission of where the Penn station demolition materials were disposed to comply with Order Point 5.
- The 2008 weekly progress reports for the spring painting and cleanup or a letter that it occurred should be provided in order to complete Order Points 7 and 17.
- Station pressure test results to complete Order Points 8 and 13.
- Enbridge should provide a copy of the Class III Investigation Report as well as information as to what architectural and historic sites were demolished at the Penn station site the week of March 25, 2007 and verification that the 3 architectural sites in the October 6, 2006 SHPO letter were avoided to complete Order Point 14.
- Second and third year tree and shrub monitoring reports that confirm a 75 percent survival rate in order to complete Order Point 19.
