RE: Transcanada Keystone pipeline

Case Number PU-06-421

Good Afternoon:

I made a request on Friday Sept. 7th to Patrick Fahn at the PSC to ask the Keystone officials/ attorneys for a detailed GPS Map of Exhibit T9 of the proposed and alternative routes by the Fordville Aquifer.

Today Sept. 13th Mr. Fahn called and mentioned that the Keystone Attorneys'/ Officials turned this request down. Said to go through our Attorney.

As an intervener with individual status I believe this request should be granted as we should have a right to know exactly where the proposed and alternate routes are going to be.

Hope to hear on this matter soon.

Thank You
Janie Capp
