As shown in Late Filed Exhibit T-35, the North Dakota Department of Parks and Recreation (ND DPR) has been included in Keystone's mailing list since July 2005 and has received the material listed in that exhibit, including invitations to open houses and Keystone's periodic newsletter.

In addition, on September 17, 2007, a Keystone representative (Ms. Jean Decker) and Mr. Douglas Prchal from the ND DPR discussed the project in a telephone call. A call summary of this call is attached to this exhibit. Keystone and representatives from the ND DPR are scheduled to meet in person in the next two weeks in Bismarck.

Telephone Call Summary

By: Jean Decker Date: September 17, 2007

Talked with: Douglas Prchal Project number: _____

From (company): ND Dept of Parks and Recreation Project name: Keystone Pipeline

Phone number: _____ Subject: ND Parks and Recreation Concerns related to the Keystone Project

Distribution: _____

Call Purpose:

The purpose of this call was to discuss ND Parks and Recreation (Parks) concerns with construction and operation of the Keystone Pipeline Project.

Results:

1. Mr. Prchal indicated that he is aware of prior discussions between Keystone and Ms. Michelle Vetter of Parks concerning potential effects on the Tetrault State Forest.
2. Primary issues for Parks are the crossings of the Sheyenne River Valley National Scenic Byway in Ransom County, near Little Yellowstone Park, and the proximity of the pipeline to Fort Ransom State Park. He recommended that I speak to Jesse Hanson who heads up Planning and the Byway program, and also the coordinator at Fort Ransom and Ms. Kathy Duttenhefner.
3. I suggested that I (and potentially other Keystone representatives) meet with Parks personnel in Bismarck in the next two weeks to talk specifically about project issues. Mr. Prchal indicated that this would be very helpful.

Action Items:

1. Keystone will set up a coordination meeting with Parks in the next two weeks in Bismarck.
2. I left phone messages with the Fort Ransom and Scenic Byway staff to obtain feedback from them.
