Case No. PU-06-421

**NOTICE OF FILING AND
NOTICE OF HEARING**
May 2, 2007

On April 11, 2007, TransCanada Keystone Pipeline, LLC (TransCanada) filed an application for a waiver of procedures and time schedules, and consolidated applications for a certificate of corridor compatibility and a route permit authorizing construction of approximately 218 miles of 30-inch crude oil pipeline and associated facilities in the counties of Pembina, Walsh, Nelson, Steele, Griggs, Barnes, Dickey, Sargent, and Ransom.

Barnes, Ransom, and Sargent Counties of North Dakota. The proposed corridor and route are shown on the attached map.

TransCanada requests the Commission waive the procedures set forth in North Dakota Century Code Sections 49-22-08 and 49-22-08.1 to allow for a single consolidated application for Corridor Certificate and Route Permit. TransCanada further requests that the Commission reduce the minimum width of the corridor from 6 miles, North Dakota Administrative Code Section 69-06-04-02, to 1 mile.

The Commission finds the application is complete.

The issues to be considered in this proceeding are:

1. Will the location, construction, and operation of the proposed pipeline produce minimal adverse

effects on the environment, natural resources, and upon the welfare of the citizens of North Dakota?

2. Is the proposed pipeline compatible with the environmental preservation and the efficient use of resources?

3. Will the proposed pipeline corridor and route minimize adverse human and environmental impact while ensuring continuing system reliability and integrity and ensuring that energy needs are met and fulfilled in an orderly and timely fashion?

4. Is it appropriate for the Commission to waive the procedures as requested in the application including the request for a single consolidated application for Corridor Certificate and Route Permit?

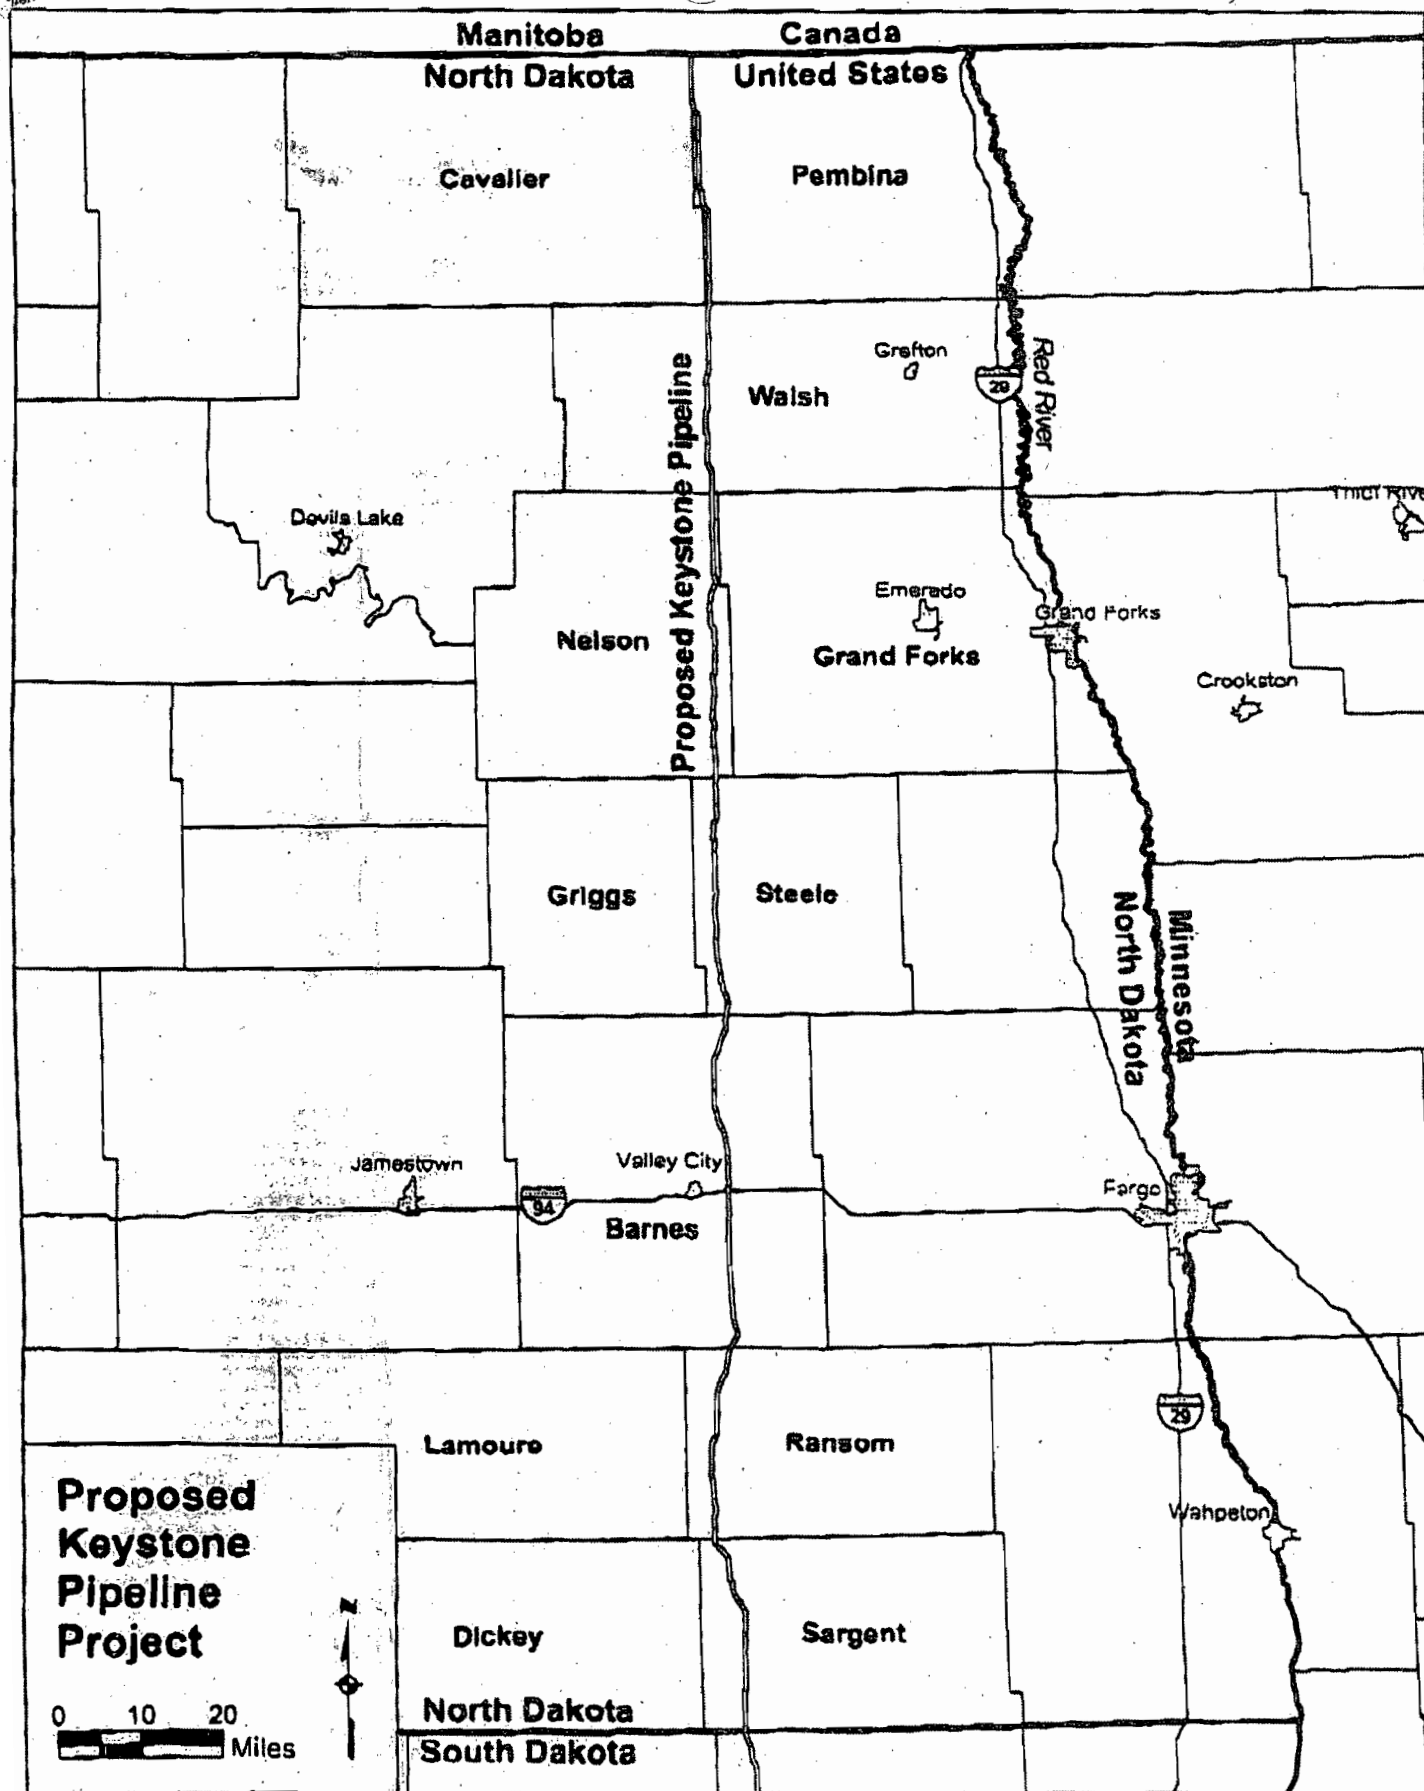

Public hearings on this application are scheduled to begin:

• Monday, July 23, 2007 at 1 p.m. CDT at the Barnes County Courthouse, 230 4th St NW, Valley City, ND 58072, and

• Tuesday, July 24, 2007 at 1 p.m. CDT at the City Office Building, 514 Briggs Ave S, Park River, ND 58270

FINDING OF NO SIGNIFICANT IMPACT August 1, 2007 TO ALL INTERESTED GOVERNMENTAL AGENCIES AND PUBLIC GROUPS:

As required by guidelines for the preparation of environmental impact statements, an environmental review has been performed on the proposed project in below:

Project: Effluent Reuse Facility with Supply & Return Pipelines
Location: Cass County, North Dakota
WSRF Project Number: 380923-01
Total Cost: \$17,943,900

The proposed project is for the construction of an effluent reuse filtration facility with supply return pipelines to serve an ethanol processing plant near Casselton, North Dakota. The effluent reuse filtration facility will be located on the lands of the City of Fargo wastewater treatment plant. The supply and return pipelines will be approximately 27.3 miles long. Other sources of water could not provide the consistent, long-term supply needed by the ethanol plant. The new effluent reuse facility will provide an adequate, quality water supply to serve the ethanol processing plant, and the wastewater return pipeline ensures that the wastewater from the ethanol plant is properly treated at the City of Fargo wastewater treatment plant.

The project site for the effluent reuse treatment facility will be located on the grounds of the City of Fargo wastewater treatment plant. The supply return pipelines will traverse streams, high-quality prime agricultural land, and will be buried or bored beneath the surface. For a further discussion of this see item V, Environmental Impacts of Proposed Project in the attached Environmental Assessment document. Wetlands, area plains, prime agricultural land, threatened or endangered species habitat, or archeological will not be adversely impacted.

The review process did not indicate significant environmental impacts would result from the proposed action. Consequently, a preliminary decision to prepare an environmental impact statement has been made. This action is taken on the basis of a careful review of the engineering, environmental information document, and supporting data which are on file in the Multi-Facilities Division of the North Dakota Department of Health.

Comments concerning this decision may be submitted to David L. Bergsagel, Environmental Engineer, Division of Municipal Facilities, North Dakota Department of Health, 918 East Divide Jr, 3rd Floor, Bismarck, ND, 58501-1947.
