Subject: FW: for docketing in Keystone

Lisa,

Can you docket Tony's e-mail in the Keystone Case 06-421?

Thanks

Bruce Furness, Fargo, called this morning and left a message indicating the City of Fargo had asked him to give me a call to inquire about the case and encourage that it be re-opened.

I called Bruce back and informed him that because of the contested nature of the case and the city's status as an entity petitioning for intervention, I couldn't really discuss the matter in detail. Our brief discussion centered on the nature of regulatory proceedings generically, as well as a non-germane chat about wind energy in ND.
