Subject: PU-06-421

Former Fargo Mayor Bruce Furness called me on Monday, October 29, 2007 at the request of city officials to encourage me to vote to grant their motion to intervene and reopen the Keystone case. I explained the role of the commission in contested cases and that it would be inappropriate for me to discuss the matter with him. I informed him that a note would be placed in the case file disclosing our conversation.
