Subject: Keystone Pipeline

dear Susan,

Please do not delay your decision about allowing Keystone Pipeline Project. As an individual who is concerned for our state, I feel Keystone has addressed all issues of safety and water contamination . I feel it is very important for North Dakota to be progressive for the growth of our state and this pipeline would certainly be a witness we are doing all we can to do this . THank you for the work you do.

Corene Vaughn, North dakota resident and Pembina County Commissioner
