North Dakota Public Service Commission
Bismarck, ND

Dear Commission Members,

This letter is in support of the Keystone Pipeline Project. I have worked closely with Keystone and I am confident they will make every effort possible to protect the surrounding ecology and environment. This project has a very positive affect on our county state and entire country.

I encourage the commission to make a favorable decision in this matter today as not to further delay the progress of this important project.

Thank You.

Sincerely,

Andy Adamson, Chairman
Pembina County Board of Commissioners
Cavalier, ND 58220
