Subject: pristene land

This is the NE 1/4,sect.30-140-57m Barnes County, t hat the Canadians want to create a 50 foot scar in and a 1000 foot wide NO BUILD zone across my land, It is YOUR MANDATE to protect the Public, not the foreigners, from exploitation, or have you forgotten.? I object to your concluding that the case is closed and saying so in the press. If you believe that the Canadians will lose \$100,000,000 due to the delay you must still believe in the Tooth Fairy and Santa Claus!!!

I *would like to be awarded intervenor status because there are many technical questions con*cerning the chemistry and fluids dynamics of the oil that you apparently have little knowledge of but must be known prior to your decision or your position will not be valid nor defensible in court.
