Re: TransCanada - Keystone Pipeline Project  
Case No: PU-06-421  
Our File No. 11815

Dear Ms. Jeffcoat-Sacco:

With regard to the previously filed April 29, 2008 motion for approval of five pending route refinements, I am filing an original and seven copies of two supplemental exhibits that are revised maps intended to modify the revised routes for two of the landowners, namely Belanus who had his revised route map included as Exhibit A and Johansen who had his revised route map included as Exhibit C.

These two attached maps show the original route as approved, the revised route as submitted previously and now the second revised route as is requested for approval. This substitution is necessary because the route has changed again in order to avoid two cultural resource sites that were found on each of these routes following survey work. Accordingly, these two maps, Substitute Exhibit A and Substitute Exhibit C, are intended to be submitted for the route refinement that is being requested for approval regarding these two specific landowners, Belanus and Johansen.

I am also enclosing an original and seven copies of the Certificate of Service. If you have any questions, please feel free to contact me.

Sincerely,

Todd D. Kranda
