**NDSHPO REF. : 06-0088qq PSC/ Department of State/ENSR
TransCanada Keystone Pipeline: Addendum 14: Class I, II, and III CRI,
National Register Eligibility Determination and Determination of Effect for
Site 32RM169**

Dear Elizabeth:

We have received and reviewed 06-0088qq DOS correspondence of June 23 for **TransCanada Keystone Pipeline related to: "Addendum 14 to Keystone Project: Class I, II, and III Cultural Resource Investigations in Eastern North Dakota: Discovery Site 32RM169,"** by Ed Stine and Damien Rhinehart (Metcalf Archaeological Consultants, June 2008) and find it acceptable. We concur with the scope of identification efforts undertaken in the TransCanada Keystone project APE, as reported. Also, we concur with **"No Historic Properties Affected"** and **"No Significant Sites Affected"** determinations provided the reroute and protective fencing are used to avoid 32RM169 as stipulated. Thank you and we look forward to further consultation and to further review of outstanding documents regarding the project. If you have questions please contact either Paul Picha at (701) 328-3574 or Susan Quinnell at (701) 328-3576.

Sincerely,

536 PU-06-421 Filed: 6/23/2008 Pages: 2
