Attachments: Photos Spread 1A-1.ppt

Pat –

I have received from Buster Gray several fairly recent slides/photos of the construction activity occurring on Spread 1A and Spread 2A in ND for the Keystone Pipeline project.

As you may recall from the last informal hearing there was a suggestion that Keystone provide this additional material to the PSC if available to show the construction activity for the project. Accordingly, I am forwarding the attached slides/photos. I may need to send these in smaller batches since the total size may exceed the email delivery limitations.

I assume you will circulate these to the appropriate individuals including the individual Commissioners if they are interested in seeing the progress and construction activity for the Keystone Pipeline. Please let me know if you have any questions.

Todd

c: Illona

PS – I am working out the final details for a tour by State Officials of the Keystone construction area which is tentatively set for Tuesday September 16th. When finalized I will send you more information in case there are individuals at the PSC who would want to attend.
