HAND DELIVERED

Re: TransCanada Keystone Pipeline LP Project  
Case No. PU-06-421  
Our File No. 11815

Dear Mr. Nitschke:

Enclosed for filing pursuant to Public Service Commission Order dated February 21, 2008, namely paragraph 33, are two large sets of maps along with two reduced 11 x 17 sets of maps for the hard copy and two CDs with the electronic copy of the pipeline alignment drawings with alignment data showing the Keystone pipeline as built. Also, enclosed as part of the two CDs are not only the pdf files of the alignment maps but also an electronic version of the as-built pipeline alignment that can be imported into ESRI GIS mapping software.

This material is being filed in compliance with the requirement as set forth by the February 21, 2008 Public Service Commission Order. This is current information and it should be noted that due to economic build up the information supplied should be verified with the operator prior to any ground disturbance. The use of the North Dakota One Call excavation notice system, 1-800-795-0555 or 811, call before you dig, is required by law (Chapter 49-23 NDCC).

If you have any questions or require anything additional, please feel free to contact me.

Sincerely,

Todd D. Kranda
