Subject: Tatanka Wind Farm Opposition

The following contact was recorded into the Public Contact System:

Gene Anderson
P.O. Box 67
Casselton ND 58012 Phone: 701-347-5052

The issue is as follows: He doesn't think wind farm transmission lines or the wind farm should be built where Tatanka has proposed it. He is concerned about the impacts to the prairie and noise the turbines will create. He said he has land near Ashley, but it is not land that the wind farm is being placed on.

The resolution so far is as follows: I told him that landowners have been notified and that we held a hearing on Jan. 18, 2007 which allowed the public a chance to speak on the impacts of the transmission line. I also told him that we will take written comments and if he wants to send a letter opposing the wind farm transmission line he can. He requested maps and more details about the project, which I am sending him.
