Advance Determination of Prudence      Case No PU-06-481  
Application      Case No PU 06-482

**Interveners**

**Motion to Compel Responses to Discovery Requests Filed by  
Interveners on Applicants on March 15, and March 30, 2007**

Interveners have filed discovery requests in this matter on Applicants on March 15, 2007 and March 30, 2007.

Applicants have filed objections to virtually all discovery requests on March 15, 2007 and have not responded or objected to Interveners discovery Requests dated March 30, 2007.

Interveners have returned signed confidentiality agreements to Applicants as requested.

It is likely that many of these objections will be resolved by the pending Motion in Limine and Interveners Memorandum in opposition to it. Said Memorandum in opposition is filed today.

Interveners request that the PSC promptly decide all pending objections to discovery requests and promptly

require to Applicants to file all objections to additional pending discover requests so all discovery objections may be resolved promptly.

On prompt completion of both discovery requests by Applicants, Intervener will be able to in a reasonable time file Interveners testimony with the commission

In that this delay in responding to discovery request has been created by Applicants, Interveners has filed a separate request allowing Interveners to file proposed testimony on May 15, 2007.

Interveners request the PSC grant this requested relief.

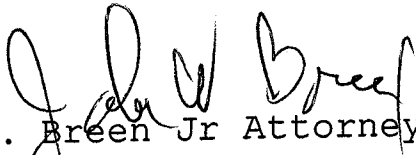

Respectfully submitted, April 16, 2007.

Interveners
