**Attachments:** NDPSC PU-06-481 and 482 Exhibit List (revised).doc

Counsel, attached is a revised exhibit list for the captioned matters. The only substantive changes of Ms. Daniels's final exhibit list which I made were to renumber Exhibit 302a to be 301a to be consistent with the other summaries, and to identify Commissioner Sahr's testimony May 25, 2006, before the Senate Committee on Energy and Natural Resources as PSC 3 to identify it for the record which I apparently did not do for the hearing.

The various other revisions are all, I think, matters of form, again largely for consistency, which may facilitate the handling of the exhibits.

Of course, counsel, you should not hesitate to communicate with me if you think I have mistakenly or incorrectly revised the identification or description of any exhibit.

Ms. Anderson will mark the Commission's exhibits for the hearings in accordance with this list.  
Regards, Al Wahl.
