Subject: Experience with FPL  
regarding plans for Wind Towers

I am a land owner in Cavalier County and FPL has selected my property to locate one of their planned wind towers. There were some complications in working out the arrangement to our mutual satisfaction. I am writing this memo to commend FPL and, in particular, their representative, Mr. Ted Weisman for the manner in which they negotiated a fair and equitable arrangement. I found Mr. Weisman to be honest, straight forward and flexible in making arrangement to benefit as many land owners as the engineering requirements would permit. On the basis of my experience I would expect FPL to be a good neighbor in Cavalier County. If you would like more detail on my experience I would be happy to respond.
