RE: Langdon Wind, LLC; Post Construction Inspection, Case No. PU-07-026, PU-07-722

Dear Mr. Lein:

Over the past few months, the entity listed above has worked diligently to identify and submit information and documentation responsive to your requests of February 11 and 12, 2014 regarding the Post Construction Inspection Cases noted above. On March 13, 2014 and April 11, 2014, we provided relevant materials on CDs via overnight mail and outlined the status of the remaining actions and requests for information. In the April 11, 2014 response, we stated that we would provide an update on the status of these items within 30 days. This letter provides an update on these efforts.

The case referenced in the subject line has at least one remaining open item. Despite diligent efforts, we have not yet been able to obtain information responsive to the open items. We will continue efforts to identify materials relevant to these requests and submit additional information to you if and when it is acquired. In the meantime, I would be happy to discuss the information and documents previously provided and any other issues relevant to the Post Construction Inspections.

Sincerely,

Nicole Daggs
Senior Director, Business Management
