

SECTION B: STUDIES

- b. Contacted agencies – Federal/Regional

Attention Public Service Commission

To Whom it may concern:

Based on conversation with your agency, the requested information regarding applicable agencies providing input to the environmental concerns have been contacted. The letters and their responses are as follows.

1. Aeronautics Commission
2. Auditor (Logan County)
3. Attorney General
4. County Commission
5. Department Of Agriculture
6. Department of Career and Technical Education
7. Logan County Commission
8. Department of Commerce Economic Development and Finance Division
9. North Dakota Department Of Commerce Economic Development and Finance Division
10. North Dakota Division of Community Service Energy Conservation and Renewable Energy Programs
11. Congressman
12. U.S. Fish and Wildlife Service
13. North Dakota Game and Fish Department
14. North Dakota Geological Survey
15. North Dakota Governor
16. North Dakota Department of Health
17. North Dakota Historical Society
18. North Dakota Department of Human Services
19. North Dakota Indian Affairs Commission
20. North Dakota Job Service
21. North Dakota Department of Labor
22. North Dakota State Land Department
23. North Dakota Office of Management and Budget
24. Mayor- Gackle, Fredonia, Napoleon
25. North Dakota Parks and Recreation Department
26. North Dakota Senator
27. North Dakota Soil Conservation Committee
28. North Dakota Association of Soil Conservation District
29. North Dakota Department of Transportation
30. North Dakota State Water Commission

North Dakota Aeronautics Commission

February 28, 2008

Mr. Gary Ness, Director
Aeronautics Commission
P. O. Box 5020
Bismarck, North Dakota 58502-5020

**RE: Logan County Wind Farm
Logan County, North Dakota**

Dear Mr. Ness,

In November of 2006, Just Wind sent your agency a letter stating we were in the process of developing a Wind Farm Project in Logan County. Since then our project size and consequently our footprint has increased. We are now looking at a project that consists of 150, 2.4 MW turbines encompassing 2 townships. (Maps enclosed).

We are asking the Aeronautics Commission for assistance in identifying any environmental properties, concerns, or issues, within our project footprint. This information will be used to help guide project development in a manner that would identify and avoid impacts to sensitive resources where ever possible. Just Wind, has sent similar letters the other agencies including the US. Fish and Wildlife Service, North Dakota Game and Fish, US. Army Corps of Engineers, and North Dakota Department of Natural Resources.

We would appreciate a response by March 20, 2008, so we can finalize our application with the North Dakota Public Service Commission. Please contact me at 612-245-6608 if you have any questions.

Thank you for your assistance.

Respectfully Submitted,
Just Wind, LLC.

Ms. Blanche Schumacher
Logan County Auditor
301 Broadway
Napoleon, North Dakota 58561

**RE: Logan County Wind Farm: Application For Building (Zoning) Permit
Logan County, North Dakota**

Dear Ms. Schumacher,

Just Wind is pleased to announce that the Logan County Wind Farm Project has moved to the point where we are ready to submit our Application For Building (Zoning) Permit. I have used the Logan County Application format as a guideline to produce the enclosed application. Due to the fact that this is not your usual building project, I respectfully modified the County application to pertain to our wind farm project. I hope this meets with your approval. Enclosed you will find the Application form, maps depicting the project site, and a preliminary turbine layout. Blanche, you probably have heard that I have not been one to make public statements about our project. However, as things move forward, that will somewhat be out of my control. It has always been my position to just build our project.

Since beginning our project, as information came to light, we have expanded our project size and footprint. We are now looking at a total of approximately 360 turbines to be placed in Glendale, Bryant, and Starkey Township. We are now in the process of developing the first 150 turbines of that project. We are dealing with 2 major power companies to sell our power output. We are in contract negotiations with one of them now. We are looking for construction to start on the project sometime in 2009, with our Commercial Operation Date to be by approximately July of 2010 or sooner.

Just Wind - Wind Farm Development

2470 Fairview Lane - Mound, Minnesota 55364 Phone (612) 245-6601

What we are looking to do at this time is invite the Napoleon Homestead to a brief presentation with the County Commissioners, the Mayor, and the County Auditor, along with a few members of the Napoleon Community Development Group, of the Application For Building (Zoning) Permit along with the required check for \$10,000. We are working out the details with the paper now. We are looking for this to take place sometime on Monday the 10th of March. We will notify you by phone as to the exact date and time. I would like to thank you for all your help with our project, and I looking forward to your continued support.

Please contact me at 612-245-6608 if you have any questions.

Thank you for your assistance.

**Respectfully Submitted,
Just Wind, LLC.**

Dear Mr. Metzger:

I am responding on behalf of the Attorney General to your recent letter regarding an investigation of property in Logan County as you expand development of a wind farm. You ask that this office identify environmental properties, concerns, or issues within the boundaries of certain tracts of land.

The Attorney General and members of his staff are prohibited by statute from giving legal advice, opinions, or assistance to private businesses or members of the public. We may only serve as legal advisors to state officials, state's attorneys, and certain city officials.

Accordingly, we cannot provide the assistance you requested. You should ask your company's legal division to conduct this kind of review. If your company does not have a legal division then to ensure compliance with state, federal and local laws and regulations you should consult an attorney in private practice licensed in North Dakota. If you need assistance finding an attorney, you can contact the State Bar Association at (701) 255-1404.

Sincerely,

A handwritten signature in cursive script that reads "Liz Brocker".

RE: Logan County Wind Farm, Logan County, ND

Dear Mr. Metzger:

In response to your request relating to the above mentioned project, we would offer the following information for your consideration.

While we are not aware of any environmental property, concerns, or issues within the boundaries of the proposed project, we would defer to the North Dakota Game & Fish Department, the ND Parks & Recreation Department, the State Historical Society of North Dakota, and the North Dakota Health Department for their input. According to your letter it appears you have already initiated this process.

As you are aware, the North Dakota Public Service Commission is the authority which issues permits for locating power plant and transmission lines within the state.

With regards to land use, approvals are granted by the local land use/zoning authorities.

Sincerely,

James R. Boyd

This letter is to serve as notice pursuant to Article 69-06-01-05 of the Energy Conversion And Transmission Facility Siting along with ND Transmission Facility Siting Overview: (N.D.C.C. Chapter 49-22). Jurisdictional Transmission Facilities (49-22-03).

Just Wind LLC, or its assigns, is pleased to announce its intent to develop on a site located in Bryant Township, in Logan County, North Dakota, a wind power electrical generation facility (Wind Project) having an initial aggregate nameplate capacity of approximately 81 MW.

We are in the process of notifying all applicable agencies of our intent to build and operate a Wind Farm. Just Wind is a registered Minnesota LLC and is in the process of filing all necessary paper work to do business in the State of North Dakota.

As our project moves forward, your input will be valued. I look forward to your involvement. As you well know North Dakota has a prime wind resource, and will be beneficial to the local community. Enclosed is an estimate of the value of the project for the local community. I have sent a copy of this letter to your Washington office also. If your agency requires any additional information or has any questions, my contact information is listed on the enclosed card. I look forward to your help and support of our project. Thank you.

Sincerely,

Jeffrey L. Metzger

**RE: Logan County Wind Farm
Logan County, North Dakota**

Dear Mr. Erickson,

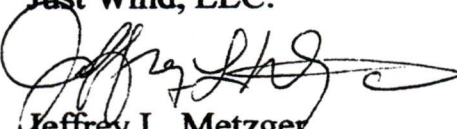

In November of 2006, Just Wind sent your agency in Bismarck a letter stating we were in the process of developing a Wind Farm Project in Logan County. Since then our project size and consequently our footprint has increased. We are now looking at a project that consists of 150, 2.4 MW turbines encompassing 2 townships. (Maps enclosed).

We are asking the U. S. Fish and Wildlife Service for assistance in identifying any environmental properties, concerns, or issues, within our project footprint. This information will be used to help guide project development in a manner that would identify and avoid impacts to sensitive resources where ever possible. Just Wind, has sent similar letters the other agencies including the North Dakota Game and Fish, US Army Corps of Engineers, and North Dakota Department of Natural Resources. I have spoken to both Jeff Towner and Terry Ellsworth about our project and we look forward to working with your group as our project moves forward.

We would appreciate a response by March 20, 2008, so we can finalize our application with the North Dakota Public Service Commission. Please contact me at 612-245-6608 if you have any questions.

Thank you for your assistance.

Respectfully Submitted,
Just Wind, LLC.

Dear Mr. Metzger:

RE: Logan County Wind Farm, North Dakota

The North Dakota Game and Fish Department has reviewed this project for wildlife concerns. Our primary concern with wind power development is the disturbance of native prairie associated with construction of turbines, access roads, transmission lines, etc. We ask that work within native prairie be avoided to the extent possible, and that US Fish and Wildlife Service wind turbine siting guidelines be implemented as appropriate in an effort to reduce these impacts.

National Wetland Inventory maps indicate numerous wetlands within the project area. We recommend that steps be taken to protect any wetlands that cannot be avoided, above-ground appurtenances not be placed in wetland areas, and no alterations be made to existing drainage patterns.

We would appreciate being kept informed as this project progresses, and as other wind power projects are developed in North Dakota. If possible, we would also like the GPS coordinates for each turbine after the site has been established.

Sincerely,

A handwritten signature in cursive script that reads "Steve Dyke". The signature is written in black ink and is positioned above the typed name of the sender.

Terry Steinwand,

This letter is to serve as notice pursuant to Article 69-06-01-05 of the Energy Conversion And Transmission Facility Siting along with ND Transmission Facility Siting Overview: (N.D.C.C. Chapter 49-22). Jurisdictional Transmission Facilities (49-22-03).

Just Wind LLC, or its assigns, intends to develop on a site located in Bryant Township, in Logan County, North Dakota, a wind power electrical generation facility (Wind Project) having an initial aggregate nameplate capacity of approximately 81 MW.

I was in your office a few months back to start making contact and get information for my project. Your staff was very helpful and provided me with most of the information I need. My environmental engineering group will be in contact with your department as they start their studies. I look forward to working with you in the near future. If your agency requires any additional information or has any questions, my contact information is listed on the enclosed card. Thank you.

Sincerely,

Jeffrey L. Metzger
