Re: NDPDES Permit No. NDG070191

Dear Mr. Meneghini:

We have received your “Application for Permit to Discharge - NDPDES Industrial-Short Form C” and have granted authority to discharge under the General Permit for Temporary Dewatering/Hydrostatic Testing Permit No. NDG070000. Your facility has been assigned permit no. **NDG070191**. This permit has been issued by the Department with the understanding that all other applicable permits and permissions have been obtained for the start of the following project. The application indicates that the discharge(s) will consist of surface water and or municipal water from hydrostatic testing new pipe for the LSr Project:

<u>Discharge Point</u>	<u>Location</u>
001H	Milepost 773.72-802.43 – LSr Project; Pembina County

**All discharges shall be sampled at the start and end, and inspected daily for each discharge point.** On a daily basis record the amount discharged and make a visual inspection of the discharge for Oil and Grease. If a sheen of Oil and/or Grease is observed in the discharge at any discharge point, collect a sample for Total Petroleum Hydrocarbon (TPH) and contact the Department. A grab sample for pH and Total Suspended Solids will be imposed on all discharge points. If the hydrostatic test water is from a chlorinated source Total Residual Chlorine will be imposed on this permit. No additives, to the hydrostatic test water, have been approved for this project. No discharge shall be made directly to a water body. Best Management Practices (BMPs) must be used to minimize the impact of the discharge.

Enclosed are Discharge Monitoring Report (DMR) forms for your use. If someone else is responsible for the submittal of the DMRs, please forward this letter and the enclosed forms to them. The reports cover three months; the dates and location have been filled out. If no discharge occurs during the reporting period, check “No” in section one. The reports must be post-marked by the last day of the month following the end of each reporting period. All original DMR forms should be sent to the Department and a copy should be kept for your files. **EPA no longer requires a copy of the DMR form.**

If any other testing is conducted during this project, copies of the results of any such test should be forwarded to the Department. **Should you wish to no longer be covered under this permit, you must submit a written request to terminate and cite the reasons for termination.** Coverage shall be maintained until a written notification to release has been issued to the permittee by the Department. Should you have any questions about your permit or how to complete the DMRs, please contact me at (701) 328-5234.

Sincerely,

Marty Hardison
