Based on the application for **Bond Release Number 10 for Surface Coal Mining Permit Number BNLS-8109**, received March 12, 2007 and as later modified, and all information and documentation contained therein, the North Dakota Public Service Commission finds that:

1. Attached to the Application for Release of Bond were copies of all letters sent by the Permittee as required by NDCC §38.14.1-17(1)(b). Affidavits of publication for the advertisement required by NDCC §38.14.1-17(1)(a) have now been filed and have been made part of the Application for Release of Bond. The last date of publication was August 1, 2007.
2. On August 1, 2007, the Commission conducted an inspection and evaluation of the reclamation work involved, as required by NDCC §38.14.1-17(3). The surface owner, agent, or lessee was given notice of the bond release inspection and had the opportunity to participate with the Commission in conducting the inspection.

In accordance with NDCC §38.14.1-17, Bond Release No. 10 for Surface Coal Mining Permit Number BNLS-8109 is hereby granted to BNI Coal, Ltd. effective January 11, 2010, unless a formal hearing is requested. Release in the amount of \$37,226.00 is approved. The area is described by the attached metes and bounds descriptions and as follows:

**A portion of Section 17, T162N, R94W, in Burke County,**  
**releasing all remaining reclamation liabilities on 146.52 acres.**

This decision to release all of the bond on this acreage is made for the following reasons:

The post-mining land uses of cropland and grassed waterway have been implemented as approved in the reclamation plan, the applicable revegetation success standards have been met, and all other requirements of the applicable reclamation laws and rules have been satisfied.
