**RE: Enbridge Pipelines Pembina County, Pipeline Siting Applications
Case Nos. PU-07-075 and PU-07-108
Post Construction Inspection**

The North Dakota Public Service Commission retained third-party vendors to conduct construction inspections for facilities constructed under the authority provided in the above referenced cases. Below we provide a weblink to each third-party construction inspection report for your review and a link to the Commission's orders in the proceedings. We also list actions recommended in the inspection reports for follow-up by the company to confirm compliance with the Commission orders.

Case No. PU-07-075

On December 31, 2007, the North Dakota Public Service Commission issued an order in this case authorizing the Company to construct 28 miles of 20-inch liquid petroleum pipeline adjacent and parallel to its existing pipeline in Pembina County, North Dakota (LSr Line).

As per the post construction inspection report, the following information should be provided:

- Written documentation of several particular aspects of project implementation identified during the document review. (See Table 1 in the post construct report)
- Monitoring of open cut roads which had settled and formed slight depressions. (See Appendix A, Photos 11, 27, 30, 34 and 36 in the post construction report)

The construction report can be found at:
