Gentlemen:

It is my understanding that the Public Service Commission wishes to postpone its issuance of a decision on Keystone's Application for a Route Permit and Corridor Certificate, as well as the Certificate of Public Convenience and Necessity. Under normal circumstances, the Commission has six months to issue an Order on the aforementioned applications, however, the Commission, for good cause, can postpone its decision if necessary. I understand there are an extraordinary number of documents and a lot of evidence for the Commissioners to pour through in rendering a decision on the above referenced matters. As such, I have no objection to the Commission postponing the issuance of its Order in the above referenced matters until such time as they see fit, so as to enable it to conduct a proper and thorough review of all of the evidence in this matter.

If you have any questions or concerns regarding this or any other matter, please do not hesitate to contact me.

Sincerely,

Nicholas R. Delaney  
NRD/bml
