APR 27 2009

Permit coverage is identified as follows:

**PUBLIC SERVICE COMMISSION**

Permit ID:                    Site Name:  
NDR102635                    Rhame Substation & Microwave Site

Please remember to update the Storm Water Pollution Prevention (SWPP) plan as appropriate for site conditions. The best management practices (BMPs) and temporary structures must be inspected, maintained and adjusted until the site is stabilized following construction activities. Once the site is stabilized as outlined in the general permit, you may end permit coverage by filing a termination notice. Cities or counties may impose additional requirements and/or specific BMPs for construction affecting their storm drainage system. Please check with the local officials to be sure all local storm water management considerations are addressed.
