We have concluded the 2005 QPAP audit. I have attached the final Liberty Consulting audit report for the 2005 test year. It is quite lengthy and informative. there were 14 minor findings with minimal financial impact by Liberty Consulting and the best place to start to review the report is the executive summary on page one. there is also a detailed discussion of each finding and a separate schedule for each of the fourteen Qwest states who participated in the audit. state commissions are basically on their own from this point on how to proceed with the audit report (accept for filing, notice, request comments, set for hearing, etc.) let me know if there are any questions or comments.
