On July 25, 2007, the Commission issued a Notice of Opportunity for Hearing. On August 29, 2007, Level 3 Communications, LLC filed comments requesting that the Commission require Qwest to file an updated SGAT for approval, that all carriers have the opportunity to participate in the approval process regarding the SGAT, and that the Commission order Qwest to allow Level 3 to continue to operate under its current interconnection agreement until an updated SGAT has been submitted and approved.

On October 15, 2009, Qwest filed a request that the Commission issue an order approving withdrawal of the SGAT. Qwest believes that three developments support the withdrawal: (1) on June 9, 2008, Level 3, entered into a Term Extension Agreement of its interconnection agreement with Qwest, extending that agreement until July 31, 2010; (2) the Idaho Commission granted Qwest's request to withdraw the Idaho SGAT finding that intervenors did not identify a legal requirement in Idaho that an SGAT remain in effect; and (3) in the two years since Qwest made its filing to withdraw the SGAT, no CLEC has opted into the SGAT in North Dakota.

Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. Requests for hearing must be received by January 15, 2010. If deemed appropriate, the Commission can determine the matter without a hearing. The SGAT is a statement of the terms and conditions under which Qwest provides access and interconnection to its network facilities for the network facilities of unaffiliated, competing providers of telephone exchange services.

Qwest states that the SGAT was last updated on May 30, 2002 and, due to changes in applicable law since then, the SGAT is outdated. Qwest states that it will continue to make its Performance Indicator Definitions and its Performance Assurance Plan available to competitive local exchange
