dium, or Low or Tier 2. Participants of the review may include Qwest, CLECs, and the Commission. PAP revisions approved by the Commission as a result of such reviews apply to existing and future interconnection agreements that incorporate the PAP. The most recent PAP revision was effective beginning January 1, 2008, as approved in Case No PU-06-58. That proceeding was continued in the event an ongoing multistate Regional Oversight Committee review might result in further PAP or performance measurement changes.

On June 13, 2007, the Commission joined in a multistate collaborative audit of Qwest's PAP performance reporting and payment process for calendar year 2005, Case No. PU-07-256. The Final Report for the Audit of 2005 Qwest's Performance Assurance Plans by Liberty Consulting Group was issued November 30, 2007. The report is available for viewing and downloading from the Commission's internet site at <http://www.psc.state.nd.us/data-base/documents/07-0256/014-010.pdf>.

On December 17, 2008, the Commission joined in a multistate review of the effectiveness of the PAP and whether its continuation is necessary, Case No. PU-08-920. The review was a multistate effort organized by the Regional Oversight Committee. On February 11, 2009, the Commission issued a Notice of Qwest Performance Assurance Plan Review and Notice of Opportunity for Comment in Case No. PU-08-920, for comments from interested persons on trends in Qwest performance in providing interconnection, comments on the structural components of the PAP and performance measures, stakeholder recommendations and experiences with the PAP and performance measures, and comments on the competitive environment. The Notice stated that the Commission would receive written comments until March 27, 2009. On March 27, 2009, Integra Telecom of North Dakota, Inc. filed comments and petitioned to intervene. The Regional Oversight Committee contracted with Liberty Consulting Group (Liberty) to perform the review. Based on comments received from Integra Telecom of North Dakota, Inc. and other competitive local exchange carriers and data provided by Qwest, Liberty issued its June 30, 2009 Analysis of Qwest's Performance Assurance Plans Final Report. Liberty concluded that the PAP is still serving a useful purpose. The report also offers several recommendations for changes to the PAP and performance measures, and makes several findings that may have affected Qwest's reported performance results or payments under the PAP.

The report is available for viewing and downloading from the Commission's internet site at: <http://www.psc.state.nd.us/data-base/documents/08-0920/018-020.pdf> with appendices at: <http://www.psc.state.nd.us/data-base/documents/08-0920/018-010.pdf>. Comments and requests for hearing must be filed by January 15, 2010. Comments should address the following:

1. Whether there exists an omission or failure of existing performance measures to capture intended performance.
2. Where there is duplication of another performance measurement.
3. Whether such omission, failure, or duplication of a performance measure justifies the addition, modification, or removal of a performance measure.
4. Whether any benchmark standards should be modified or replaced by parity standards.
5. Whether the actual volume of data points have been less or greater than anticipated, and, if so, whether there is justification for the reclassification of a performance measurement.

Any disputes regarding adding, deleting, or modifying performance measurements will be resolved by the Commission. A copy of Qwest's performance measures and the PAP may be ob-

November 25, 2009
The Federal Communications Commission (FCC) has designated the 211 dialing code to provide direct access to organizations providing community information and referral services that are currently not available through the 911 emergency code or the 311 police non-emergency code.

On September 24, 2003, the Commission designated the Mental Health Association in North Dakota (MHAND), as the user of the 211 dialing code in North Dakota. On March 7, 2007, the Commission authorized MHAND to subcontract 211 operations within North Dakota. MHAND has been subcontracting with FirstLink for the provision of 211 operations in Cass County. In its October 30, 2009 letter, MHAND notified the Commission that, due to lack of economic support, it must relinquish its designation as the 211 dialing code user.

On November 2, 2009, the Commission received a letter stating that effective October 30, 2009, FirstLink will temporarily provide 211 operations for North Dakota until a decision is made about 211's future.

On November 23, 2009, FirstLink filed a letter requesting designation as the 211 dialing code user for North Dakota.

- The issues to be considered are:
1. Is any other entity interested in designation as the user of the 211 dial code in North Dakota?
 2. Is the FirstLink's intended use of the 211 dial code in North Dakota consistent with the FCC intended use of that code?

Those interested are invited to comment in writing. Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. Comments and requests for hearing must be received by January 8, 2010. If deemed appropriate, the Commission can determine the matter without a hearing. For more information contact the Public Service Commission, State Capitol, Bismarck, North Dakota 58505, 701-328-2400; or Relay North Dakota 1-800-366-6888 TTY. Request to Withdraw SGAT
Available Terms/Conditions
Application**

Case No. PU-07-314
**NOTICE OF OPPORTUNITY FOR
HEARING**
November 25, 2009

On June 14, 2007, Qwest Corporation (Qwest) filed an application to withdraw its Statement of Generally Available Terms and Conditions (SGAT). The SGAT is a statement of the terms and conditions under which Qwest provides access and interconnection to its network facilities for the network facilities of unaffiliated, competing providers of telephone exchange services. Qwest states that the SGAT was last updated on May 30, 2002 and, due to changes in applicable law since then, the SGAT is outdated. Qwest states that it will continue to

for the
Week**
with Pastor

There is a big difference between the Christmas season and the Christmas spirit. The season is based on external calculations. The spirit is based on internal conditions. The season is calendar; the spirit is heart. The Christmas season passes; the Christmas spirit should remain. The true spirit of Christmas is best exemplified by Mary and Joseph; the earthly parents of the baby Jesus. God asked both of them - individually and separately - if they would be the earthly parents of His Son who was to be the Savior of the world. This was an awesome life-changing, plan-changing request to make of this young man and woman. Mary's response to God was, "I am the Lord's servant, and I am willing to accept whatever He wants" (Luke 1:38 NLT). Joseph "did what the angel of the Lord had commanded him and took Mary home as his wife. But he had no union with her until she gave birth to a son. And he gave him the name Jesus" (Matt. 1:24-25 NIV). Their willingness to do God's will and their obedience to Him made the first Christmas possible. Now that should be the ongoing spirit of Christmas for all of us!

Level 5, entered into a Term Extension Agreement of its interconnection agreement with Qwest, extending that agreement until July 31, 2010; (2) the Idaho Commission granted Qwest's request to withdraw the Idaho SGAT finding that intervenors did not identify a legal requirement in Idaho that an SGAT remain in effect; and (3) in the two years since Qwest made its filing to withdraw the SGAT, no CLEC has opted into the SGAT in North Dakota. Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. Requests for hearing must be received by January 15, 2010. If deemed appropriate, the Commission can determine the matter without a hearing.
