Qwest Corporation Request to Withdraw SGAT Available Terms/Conditions Application Case No. PU-07-314

NOTICE OF OPPORTUNITY FOR HEARING

On June 14, 2007, Qwest Corporation (Qwest) filed an application to withdraw its Statement of Generally Available Terms and Conditions (SGAT). The SGAT is a statement of the terms and conditions under which Qwest provides access and interconnection to its network facilities for the network facilities of unaffiliated, competing providers of telephone exchange services.

Qwest states that the SGAT was last updated on May 30, 2002 and, due to changes in applicable law since then, the SGAT is outdated. Qwest states that it will continue to make its Performance Indicator Definitions and its Performance Assurance Plan available to competitive local exchange companies.

On July 25, 2007, the Commission issued a Notice of Opportunity for Hearing. On August 29, 2007, Level 3 Communications, LLC filed comments requesting that the Commission require Qwest to file an updated SGAT for approval, that all carriers have the opportunity to participate in the approval process regarding the SGAT, and that the Commission order Qwest to allow Level 3 to continue to operate under its current interconnection agreement until an updated SGAT has been submitted and approved.

On October 15, 2009, Qwest filed a request that the Commission issue an order approving withdrawal of the SGAT. Qwest believes that three developments support the withdrawal: (1) on June 9, 2008, Level 3, entered into a Term Extension Agreement of its interconnection agreement with Qwest, extending that agreement until July 31, 2010; (2) the Idaho Commission granted Qwest's request to withdraw the Idaho SGAT finding that intervenors did not identify a legal requirement in Idaho that an SGAT remain in effect; and (3) in the two years since Qwest made its filing to withdraw the SGAT, no CLEC has opted into the SGAT in North Dakota.

Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. Requests for hearing must be received by January 15, 2010. If deemed appropriate, the Commission can determine the matter without a hearing.

Public Service Commission Qwest Performance Assurance Plan Investigation Case No. PU-08-920

58 Public Service Commission Qwest Performance Assurance Plan Investigation Case No. PU-08-920

256 Public Service Commission Qwest Performance Assurance Plan Investigation Case No. PU-08-920

NOTICE OF OPPORTUNITY FOR COMMENT AND NOTICE OF OPPORTUNITY FOR HEARING November 25, 2009 Preliminary Statement

For telecommunications companies to have, or intend to have, an agreement with Qwest Corporation (Qwest) for interconnection services, Qwest offers a Performance Assurance Plan (PAP) option. A PAP provides for self-executing payments to the competitive local exchange carrier (CLEC). Qwest does not provide interconnection services to the CLEC at parity to the service it provides to its own retail customers. Qwest fails to meet certain service marks.

The PAP provides for periodic reviews to determine whether performance measures should be added to, deleted from, or modified; whether benchmark standards should be modified or replaced by parity standards; whether to move a classification of a performance measurement to High, Medium, or Tier 1 to Tier 2. Participants of the PAP may include Qwest, CLECs, and the Commission.

PAP revisions approved by the Commission as a result of such reviews apply to existing and future interconnection agreements that incorporate the PAP. The most recent revision was effective beginning January 1, 2008, as approved in Case No. PU-08-920. That proceeding was continued in the ongoing multistate Regional Oversight Committee review might result in further performance measurement changes.

On June 13, 2007, the Commission joined a multistate collaborative audit of Qwest's PAP performance reporting and payment process for calendar year 2005, Case No. PU-07-256. The Final Report for the 2005 Qwest's Performance Assurance Plan by Liberty Consulting Group was issued on November 30, 2007. The report is available for viewing and downloading from the Commission's internet site at http://www.psc.state.nd.us/databases/07-0256/014-010.pdf.

On December 17, 2008, the Commission joined in a multistate review of the effectiveness of the PAP and whether its continuation is necessary, Case No. PU-08-920. This review was a multistate effort organized by the Regional Oversight Committee. On February 11, 2009, the Commission issued a Notice of Opportunity for Comment and Notice of Opportunity for Hearing, Case No. PU-08-920, for comments from interested persons on trends in Qwest performance in providing interconnection, comments on the structural components of the PAP, performance measures, stakeholder recommendations and experiences with the PAP.
