RE: Notice of Coverage under
Construction Storm Water General Permit **NDR10-1977**

Dear Mr. Dundas,

We have reviewed your application for coverage under the North Dakota Pollutant Discharge Elimination System (NDPDES) General Permit associated with storm water discharges from construction activity, NDR10-0000. Your application has been assigned serial number:

<u>Permit #</u>	<u>Site name</u>
NDR10-1977	Alexander 8 inch Loop Project

Please remember to update the Storm Water Pollution Prevention (SWPP) Plan when necessary, and to inspect, maintain and adjust the best management practices (BMPs) and temporary structures until the site is stabilized following construction activities. Once the site is stabilized as outlined in the general permit, you may file for termination of permit coverage. Cities or counties may impose additional requirements and/or specific BMPs for construction affecting their storm drainage system. Please check with the local officials to be sure all local storm water management considerations are addressed. The general permit (NDR10-0000), forms and additional information may be found at the following webpage:

<http://www.health.state.nd.us/wq/Storm/Construction/ConstructionHome.htm>

If you have any questions, please contact me at (701) 328-5244 or at drplacek@nd.gov.

Sincerely,

Derrick R. Placek

Re: NDPDES Permit No. NDG070186

Dear Mr. Dundas:

We have received your "Application for Permit to Discharge - NDPDES Industrial-Short Form C" and have granted authority to discharge under the General Permit for Temporary Dewatering/Hydrostatic Testing Permit No. NDG070000. Your facility has been assigned permit no. NDG070186. This permit has been issued by the Department with the understanding that all other applicable permits and permissions have been obtained for the start of the following project. The application indicates that the discharge(s) will consist of ground water from possible dewatering sites and water from a hydrostatic test of the new pipeline:

<u>Discharge Point</u>	<u>Location</u>
001D	Alexander 8" Loop - Section 8; Township 147; Range 101; McKenzie County
002H	Alexander 8" Loop - Section 8; Township 147; Range 101; McKenzie County

Both discharges shall be inspected daily. On a daily basis record the amount discharged and make a visual inspection of the discharge for Oil and Grease. If a sheen of Oil and/or Grease is observed in the discharge at any discharge point, collect a sample for Total Petroleum Hydrocarbon (TPH) and contact the Department. For discharge point 001D a grab sample for pH and Total Suspended Solids will be imposed on this discharge. Discharge point 002H shall have a grab sample for pH, Total Suspended Solids, and if the water is from a chlorinated source Total Residual Chlorine. Best Management Practices (BMP)s must be used to minimize the impact of the discharge.

Enclosed are Discharge Monitoring Report (DMR) forms for your use. If someone else is responsible for the submittal of the DMRs, please forward this letter and the enclosed forms to them. You may make as many copies of the forms as needed. The dates and location have been filled out for you. The reports cover three months, with the reporting periods from October to December, January to March, etc.. If no discharge occurs during the reporting period, check "No" in section one. The reports must be post-marked by the last day of the month following the end of each reporting period. A copy of the DMR form(s) should be sent to the Health Department and one should be kept for your files. EPA no longer requires a copy of the DMR form.

If any other testing is conducted during this project, copies of the results of any such test should be forwarded to the Department. **Should you wish to no longer be covered under this permit, you must submit a written request to terminate and cite the reasons for termination.** Coverage shall be maintained until a written notification to release has been issued to the permittee by the Department. Prior to that time, DMRs must be submitted quarterly as scheduled. Should you have any questions about your permit or how to complete the DMRs, please contact me at (701) 328-5234.

Sincerely,

Marty Haroldson
