RE: Bond Release No.6, Basin Cooperative Services, Glenharold Mine, Permit BCGH-8204

Dear Mr. Deutsch:

Casper Field Office has received Bond Release Application No. 6 for final bond release. This bond release application includes Federal Lands, therefore, Office of Surface Mining (OSM) concurrence is needed.

The Reclamation Division inspected the requested bond release area on October 5<sup>th</sup> and 8<sup>th</sup> of 2007. The Casper Field Office inspected the requested bond release area on October 3<sup>rd</sup>, 2007. The Reclamation Division has completed its review of the application for bond release and has documented that all required items have been addressed.

The CFO reviewed the bond release application for compliance with all other non-SMCRA Federal requirements. There are no unfulfilled requirements that would preclude the release of bond. OSM concurs with the recommendation for approval of the bond release application.

If you have any questions, please contact John Sieving of the Casper Field Office at (307)261-6541.

Sincerely,

Jeffrey W. Fleischman, Director  
Casper Field Office
